LETTER FROM THE CHIEF

OFFICE OF THE CHIEF OF POLICE
DEPARTMENT OF POLICE
(757) 427-4141

City of Virginia Beach

MUNICIPAL CENTER
BUILDING 11
2509 PRINCESS ANNE ROAD
VIRGINIA BEACH, VIRGINIA 23456-9064

June 1, 2001

Mr. James K. Spore
City Manager
City of Virginia Beach
Virginia Beach, VA 23456

Dear Mr. Spore:

I am pleased to present you with The Virginia Beach Police Department Annual Report 2000.

The report contains a summary of the department's operations, activities, and structure. It also provides a variety of annual statistics and highlights some of our many accomplishments during my first year as Chief of Police.

Throughout 2000 the department implemented several new initiatives including the Community Service Officer program to assist citizens in the delivery of police services; the Police Chief's Youth Advisory Council to help cultivate communications between the Police Department and the City's youth; the Find-a-Kid program to reunite lost children with their families while visiting the resort area; the Detection and Arrest through Traffic Surveillance program to address consequences of running red traffic lights; and the expansion of the Selection Enforcement Team to reduce accidents while driving under the influence of alcohol or drugs through training, lectures, and enforcement.

The Police Department joined in partnership with the Virginia Beach Sheriff's Office to renovate Seatack Elementary School into the Virginia Beach Law Enforcement Training Academy. This facility will allow us to enhance our commitment to the citizens of Virginia Beach by being the best trained department in the nation. The department also partnered with the Southland Corporation and Food Lion to open neighborhood substations in strategic areas of the City to allow police officers the opportunity to interact face-to-face with citizens.

The Police Department successfully completed its fourth on-site assessment by a group of police professionals from the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA). The on-site assessment team, in an October report to the Commission, reported that it would recommend the Virginia Beach Police Department for reaccreditation.

These initiatives are only a few of the many accomplishments made by the dedicated men and women of the department. Through these initiatives and the department's core values - Professionalism, Respect, Integrity, Dedication, and Excellence (PRIDE) - violent crime decreased by 4.9% and, other than in 1999, total crime reported in 2000 was the lowest during the past decade. Virginia Beach is once again recognized as one of the safest cities of its size in the nation.

I invite you to review the following pages to share in our success. I thank you and City Council for your continued support of the Police Department and the outstanding men and women with whom I have the pleasure to serve.

Sincerely

A. M. Jacocks, Jr.

**A. M. “JAKE” JACOCKS, JR.
CHIEF OF POLICE**

Jake Jacocks is a native of Hampton Roads, having grown up in Norfolk. He began his career with the Virginia Beach Police Department as a civilian Precinct Desk Officer in December 1971 at the age of 19.

Since becoming a sworn officer, in October 1973, Chief Jacocks has served in assignments throughout the Department, including all four precincts, Special Operations, the Detective Bureau, and the Professional Standards Office. In April 1999 he was appointed Deputy Chief of Operations.

Upon the retirement of Chief C. R. Wall in August 1999, Deputy Chief Jacocks was appointed Acting Chief of Police. After a seven-month nationwide search and selection process, he was appointed Chief of Police on March 15, 2000.

Chief Jacocks holds an Associate's Degree in Police Science, a Bachelor of Arts Degree in Criminology, and a Masters Degree in Public Administration. He is also a graduate of the Southern Police Institute's 64th Administrative Officers' Course, the Police Executive Leadership School at the University of Richmond, Police Executive Research Forum's Senior Management Institute for Police, and Leadership Hampton Roads.

He serves on the Board of Directors of several local nonprofit organizations, as well as the Chesapeake Bay Alcohol Safety Action Program Policy Board and the Board of Trustees of Leadership Hampton Roads.

Chief Jacocks is a member of the International Association of Chiefs of Police, the Major Cities Chiefs, the Police Executive Research Forum, the Virginia Association of Chiefs of Police, and the Hampton Roads Association of Chiefs of Police.

He is also a Lieutenant Commander in the U. S. Navy Reserve Intelligence Program.

The Virginia Beach Police Department is the largest municipal law enforcement agency in Virginia, with an authorized staff of 777 sworn and 162 civilian personnel, and an annual budget of \$58 million, serving a population of more than 425,000 and 2.5 million visitors annually.

OUR MISSION

***“IT IS THE MISSION OF THE VIRGINIA BEACH POLICE DEPARTMENT TO
ENHANCE THE QUALITY OF LIFE OF ITS CITIZENS.”***

***“THIS MISSION WILL BE ACCOMPLISHED THROUGH A UNIFIED EFFORT IN
PROVIDING A SAFE COMMUNITY,
DELIVERY OF QUALITY SERVICES, AND
AFFORDING DIGNITY AND RESPECT TO EVERY INDIVIDUAL.”***

“SAFE COMMUNITY - FEELING OF SAFETY AT ANY TIME, ANY PLACE ”

PRIDE

Professionalism

In our actions, conduct, and job performance.
Constantly striving towards ever-rising standards.

Respect

For all our citizens, each other, and for differing points of view, regardless of age, race, gender, appearance, individual beliefs, or lifestyles.

Integrity

Truthful & honest, deserving of trust.

Ethical.

Being guided by the concept of fundamental fairness in everything we do.

Doing what is right.

Dedication

To the organization, each other, our families, and the citizens we serve.

Unquestionable work ethic.

Excellence

In everything we do.

Seeking to improve and excel, always.

IN MEMORY OF PAUL R. BUCKENMEYER

Animal Control Officer Paul R. Buckenmeyer died of a heart attack on July 12, 2000. He was employed on October 1, 1984 as an Animal Control Officer I and was promoted to an Animal Control Officer II on August 1, 1993. Paul was well liked by his fellow employees and always willing to lend a helping hand when called upon for assistance. He was very dedicated to his profession and always strived to present a favorable image of himself and the Department to the public. During his career he received many letters expressing gratitude for his helpfulness and professionalism.

In addition to the basic animal control officer training he received before being released to the street, Officer Buckenmeyer also successfully completed the State Humane Investigator's Course.

Paul was originally from Michigan and settled in Virginia Beach after serving in the U. S. Navy. Paul was an avid photographer and spent much of his off time taking photographs at weddings and other gatherings, including events at the Bureau of Animal Control. He was also active in raising and training dogs for the "Guiding Eyes" organization, that would eventually become companions for hearing and sight impaired individuals.

City of Virginia Beach Public Safety Building

DIRECTOR'S OFFICE

On March 15, 2000, Alfred M. “Jake” Jacocks, Jr. was appointed to the position of Chief of Police of the Virginia Beach Police Department. Chief Jacocks joined the department in 1971 as a civilian desk officer and rose through the ranks to become Chief of Police in what is now the 38th largest city in the nation.

In his continuing efforts to move the department forward into the new millennium, Chief Jacocks authored a revision to the department's core values — PRIDE (Professionalism, Respect, Integrity, Dedication, Excellence) — which are now closely aligned to the City's values and are now being actively incorporated into all lesson plans and general orders. Each department member was provided a wallet-size card listing those values.

2000 saw the formation of the Police Chief's Youth Advisory Council to help foster communications between the Police Department and the City's youth. The goal of the Council is to address some of the questions and concerns of our young people regarding law enforcement and their community. The Council consists of one student representative from each of the City's high schools and two private secondary schools.

Also implemented in 2000 was the Community Service Officer program. Each non-sworn, civilian officer is assigned to one of the four police precincts to provide assistance to stranded motorists and to patrol officers by answering specific calls for service to include abandoned vehicles, vehicle tows, and paper and property transfers. Each member of the program received training in areas to include traffic direction, vehicle maintenance/repair, defensive driving, CPR/first aid, and basic accident investigation. This assistance frees sworn officers to handle higher priority calls for service.

The Director's Office is committed to enhancing the quality of life of the citizens of Virginia Beach by providing a safe community, delivering quality services, and affording dignity and respect to every individual.

PROFESSIONAL STANDARDS

In 2000 the Virginia Beach Police Department, Professional Standards Office, handled a total of 200 investigations, 119 citizen complaints and 81 internal investigations. The staff also responded to 217 subpoena duces tecum and Freedom of Information Act requests. The Professional Standards Office was instrumental in the revision of the Use of Force Report which better facilitates the reporting and tracking of all use of force incidents.

DEPARTMENTAL HIGHLIGHTS

PROFESSIONAL DEVELOPMENT & TRAINING

During 2000 various projects were expanded or undertaken to enhance and improve our recruitment and training. Recruitment and hiring was expanded to a year-round process. Over 1200 individuals applied for employment and approximately 600 were processed. Additionally, an extensive advertising campaign through television, radio and job fairs were conducted in conjunction with the Department of Human Resources.

The Police Department joined in a partnership with the Virginia Beach Sheriff's Office to renovate the old Seatack Elementary School into a combined facility that has become the Virginia Beach Law Enforcement Training Academy. Major renovations have been completed and many continue. It is expected that this project will be completed within 18 months. The 31st Police Academy class is the first academy class to attend this new facility.

Staff members of Professional Development and Training developed and implemented the Youth Academy. This Youth Academy is directed towards high school students to generate an understanding and interest in law enforcement within the community.

During 2000 the Creeds Range Facility was renovated with new safety and firearms equipment as well as modified schedule for training of personnel. Additionally, a judgmental shooting simulator was obtained through a block grant and an additional range date for all personnel was provided. Scenario training, incorporating classroom and field training, was implemented in the Tactical House that was built and completed through the efforts of a block grant and members of the department. The skid car, which was approved during 1999, was obtained and placed into operation as part of the driver safety program. Range extension and improvement funds were obtained to begin a study for extension and expansion of the present range facilities, as well as improvement to the back stops and targeting systems. The second classroom was placed at the range to provide expanded training.

Long term administrative/management schools were provided to captains and lieutenants within the department, as well as the establishment of a basic and advanced police supervisory school for all first line supervisors.

OPERATIONS DIVISION COMMAND DUTY OFFICERS

Command Duty Officers are an integral part of the Operations Division after normal working hours. These captains provide command of the routine department operations, immediate command-level oversight of critical incidents, SWAT operations, vehicle pursuits, hostage and barricaded subject incidents, and emergencies involving more than one precinct or bureau.

FIRST PRECINCT

The First Precinct is committed to the delivery of quality service to the citizens of the City of Virginia Beach. Consequently, the command has strived to meet the growing needs of the precinct, particularly since it will have added more than 5,700 new single family homes and 116 businesses by the end of the year 2001 (initiated and approved in 2000.)

The First Precinct's Community Oriented Policing squad (COP), comprised of a sergeant and 11 officers, has expanded its targeted effort from two selected neighborhoods to seven total areas. These were identified as being in need of special attention. A two officer team from the unit was sent to address the party houses in Sandbridge. These efforts acted to preclude a host of negative consequences through the proactive approach taken by the officers.

The COP squad was able to execute 15 nuisance search warrants and facilitate the eviction of 12 undesirable tenants in the precinct. They conducted several bike rodeos, attended numerous civic league and other community oriented meetings, and executed several planned patrols at Lynnhaven Mall over the holidays.

Officers from the First Precinct work closely with Housing Code Enforcement personnel in order to keep a reign on abandoned vehicles, zoning violations, condemnations, etc. Members of the First Precinct have participated in the Pungo Strawberry Festival, the Fraternal Order of Police 10K Run, the Veteran's Day Parade, the American Heart Association Walk, and other community-oriented functions.

SECOND PRECINCT

The Second Precinct continues to explore new and innovative methods to meet customer needs. The precinct works together with City departments to meet the everyday challenges of service delivery. The creation of the Find-A- Kid 2000 Program allowed lost children to be reunited with their family through wristbands acquired from hotels and motels.

Additionally, officers used problem solving methodologies to address the issues associated with a lack of public facilities, particularly in the early morning hours. Working with other City departments, a program was started to strategically place portable facilities in public parking lots. These facilities are housed in wooden structures designed to enhance their appearance.

A positive relationship continues between the precinct and the Citizens Advisory Committee (CAC). The CAC has shown much support and continues to work with the precinct collectively through its more than 100 member Internet email organization. It is through their active participation that they work together to solve problems.

Throughout the precinct, officers work closely with civic groups, associations and individuals to address public concerns. A pilot program to address crime problems during the off season in the 300-500 blocks of the oceanfront led to the arrest of approximately 100 wanted persons. Community Policing Officers targeted low budget hotels that offer reasonable weekly and monthly rates and tend to attract transient residents with criminal tendencies.

The Second Precinct partnered with two corporate neighbors, Southland Corporation and Food Lion, to establish neighborhood substations in strategic areas of the precinct.

THIRD PRECINCT

The Third Precinct's officers, ancillary and civilian personnel, and volunteers are all committed to the City's vision of enhancing customer service and developing Virginia Beach as a community for a lifetime. The command implemented programs such as the Detection and Arrest through Traffic Surveillance Program (D.A.R.T.S.) which addressed the serious and often fatal consequences of running red traffic lights. The community policing squads provided safety check points, hosted bike rodeos, established a satellite station in a neighborhood 7-11 store, and engaged in a partnership with a local department store to establish an annual Shop with A Cop program at Christmas. The School Resource Officer Program (SRO) developed Safe Plans for high schools, middle schools, and elementary schools. Raider's Karting Club, a Bayside Middle School program involving go-carts, rewarded students for good grades. The Third Precinct moved forward with the Community Policing philosophy by expanding outside our specific study areas and into the remainder of the community. Through a partnership with established civic leagues, the precinct zone officers attended civic league meetings to address the specific problems of their communities.

DEPARTMENTAL HIGHLIGHTS

FOURTH PRECINCT

The Fourth Precinct, in cooperation with community civic organizations and businesses, continued to provide quality customer service. This was accomplished in part by various programs and activities implemented throughout the year.

The Recreation Community Policing Officer Program (RCOP) partnered with the Kempsville Recreation Center to provide a safe environment for patrons and staff. The RCOP After School Program also provided mentoring and life skills training to approximately 85 children from local elementary schools. These children experienced an overnight sleep over, a lunch trip to the Spaghetti Warehouse, a Christmas party with gifts donated by Toys for Tots, and a formal graduation at the end of the school year.

Community Oriented Policing officers organized the First Annual Charity Law Enforcement Football Game between the Police and Sheriff's Departments. This event raised thousands of dollars for area charities. Over the Christmas holidays, in conjunction with local businesses and Operation Blessing, the Community Policing team sponsored more than 60 needy families. The team also continued work with civic organizations and Code Enforcement to address neighborhood problems.

School Resource Officers (SRO) and Truancy Abatement Program officers worked with the middle and high schools to curb criminal activity affecting students and administrators while providing a positive example to the youth. They served as coaches, teachers, and mentors and participated in various crime prevention and DARE events throughout the City.

Radar certified officers, in partnership with Traffic Engineering, investigated radar complaints and enforced speeding violations in selected neighborhoods. Five intoximeters and a handheld radar obtained by grants from the Department of Motor Vehicles were used. Members of the administrative staff provided nationally certified training to citizens on the proper way to install and use child safety seats.

The Fourth Precinct is proud of its achievements and the service it provides to the community. Along with the examples of programs listed above, the officers and staff of the precinct continue to be dedicated and committed to the duties they perform.

SPECIAL OPERATIONS

Special Operations supports the Operations Division by providing specialized patrol functions: Aviation Unit, Bomb Squad, Canine Unit, Dive Team, Fatal Accident Crash Team (FACT), Hit and Run Unit, Hostage Negotiation Team, Marine Patrol Unit, Motor Carrier Safety Unit/Environmental Crimes, Motorcycle Unit, Selective Enforcement Team, Special Weapons and Tactics Team (SWAT) and Parking Enforcement Specialist Team. Special Operations' personnel are regularly called upon to handle special events, as well as supplement precinct personnel at the Oceanfront during peak periods of activity.

Helicopter Operations completed its 26th year of operations this year. The unit has flown 19,887 hours and currently operates two Bell 206BIII JetRanger helicopters. The unit certified two new patrol pilots in 2000, and the unit's two certified flight instructors trained them for 440 hours. With the addition of these new pilots, the operational time for the helicopters increased substantially.

The helicopters flew 1,134 hours and responded to 1,088 police calls for service in 2000. These calls for service resulted in 60 felony and 51 misdemeanor arrests. They also assisted with 25 drug surveillance videos, conducted 70 searches, and participated in searches for 26 boats and 17 swimmers in distress. The helicopter was directly responsible for saving the lives of two boys by pulling them from Mount Trashmore Lake with a rescue ring. Helicopter operations answered 48 requests for assistance from other police and federal agencies, the Coast Guard, and the Virginia Beach Fire Department. The helicopters provided aerial photography and video recording to many City departments and provided executive transport for Economic Development, Convention and Visitor Development, the City Manager's Office, and City Council.

SPECIAL OPERATIONS (CONT'D)

The helicopters are used on a variety of incidents, both in a support capacity and as the primary unit. The helicopters are staffed and ready to fly 21 hours a day and fly regular daytime and nighttime patrol flights. The helicopters are used to improve police response times, to increase patrol observation, and to increase officer and citizen safety during certain types of high risk incidents. They are also used by the Police Department SWAT Team to perform specialized missions and assist the Tidewater Search and Rescue Team with locating lost Alzheimer patients. By using specialized equipment, the helicopter located an Alzheimer patient 25 miles from his home and was credited with saving his life.

The Canine Unit has 14 patrol dog teams and one explosive detection team. Canine teams are available 24 hours a day to respond and assist other members of the department with their investigations. In 2000, the canine unit answered 9,235 calls for service. They conducted 841 building searches, 1,863 area searches and 467 tracks of persons. Additionally, the unit made 97 felony arrests and 164 misdemeanor arrests. They assisted other officers with 310 felony arrests and 358 misdemeanor arrests. Along with the felony and misdemeanor arrests, the canine teams were directly responsible for locating 155 individuals.

The Narcotic Detection team was transferred to Special Investigations in September 2000. Prior to their transfer, the Narcotic Detection Team was used 198 times, resulting in the seizure of marijuana, cocaine and \$69,960 in US currency. Both the Explosive Detection and the Narcotic Detection Teams worked with the department's School Resource Officers (SROs) to assist in the seizures of contraband in the City schools.

The Selective Enforcement Team was established in 1987 to address the city's increasing fatality and alcohol related accident rates. In February of this year, the unit was expanded from one officer to nine with eight officers coming under a Community Policing grant. This grant allows the Police Department to put additional, specially trained officers on the street, as well as dedicating officers to perform training and lectures in the prevention of driving while under the influence of alcohol or drugs.

In 2000 the Selective Enforcement Team gave lectures to five different high schools and to numerous military commands at local bases. The unit received the John T. Hanna Award for Traffic Safety for their outstanding work in the area of overall traffic safety. This unit was responsible for 27% of all DUI arrests made in the City.

ANIMAL CONTROL

During 2000 the Bureau of Animal Control answered 35,929 complaints which resulted in the impoundment of 12,799 live animals and the issuing of 1,140 summonses for animal violations. Officers from the bureau are on routine patrol seven days a week from 7:00 a.m. to 11:00 p.m., and there is an officer on standby duty after 11:00 p.m. for calls such as injured animals or barking dog complaints.

In addition to patrolling city streets, the Bureau of Animal Control also patrols the public sand beaches and enforces animal ordinances in an effort to make the beaches safer and cleaner by eliminating prohibited dogs from the sand during those times when they are not permitted on the beaches.

Total stray animals picked up	11,987	Total animals adopted by citizens	1,144
Total live animals turned in by owners	812	Total animals euthanized	5,590
Total deceased animals picked up from owners	4,107	Total animal bite offense reports received	1,813
Total deceased animals picked up from city streets	3,073	Animals held at kennel for quarantine observation	375
Total deceased animals picked up from S.P.C.A.	2,360	Total animals found & returned to owner by A/C Officer	395
Total animals claimed by owner	2,717	Summonses issued for animal violations	1,140

DEPARTMENTAL HIGHLIGHTS

INVESTIGATIVE DIVISION DETECTIVE BUREAU

The Robbery Squad continued training bank employees in Financial Institution Robbery Awareness. This unique training not only prepares the tellers for potential bank robberies and what to expect when police officers and detectives arrive to investigate, but is also for preventive measures they can take. This is the only training offered in Hampton Roads, so the Robbery Squad often trains bank tellers from neighboring cities. Three training sessions were held during 2000 which provided training for 87 tellers.

A year ago, the Detective Bureau hired a certified court reporter to replace a Secretary II position. This position realignment allowed for the completion of investigative reports at a much faster rate. The addition of a certified court reporter provided for additional responsibilities including transcribing live statements/interviews, transcribing from video taped/ audio taped statements/interviews, etc. The realignment of this position has proved so successful that the Detective Bureau is considering the realignment of a second Secretary II position to that of court reporter transcriptionist.

In May 2000 the police department converted to digital photography. This conversion resulted in the ability to instantaneously record and view photographs; turnaround time for processing photographs was shortened; image security was enhanced; and the conversion resulted in both time and cost savings. Department members now utilize digital cameras which are capable of downloading photographs into a computer for processing. Images can be printed or saved to a variety of hard disk components.

SPECIAL INVESTIGATIONS

Members of Special Investigations conducted a total of 1,172 investigations in 2000. They were responsible for the seizure of 230 pounds of marijuana, 371 marijuana plants, 25.4 pounds of powder cocaine, 41 ounces of crack cocaine, 60 ounces of methamphetamine, and 15 ounces of heroin. The seizures resulted in the arrest of 433 individuals on 749 charges. The total value of the narcotics seized was \$1,517,438.00. Property and currency seizures amounted to \$955,460.00. During the 2000 calendar year, a total of \$391,693.00 in assets were forfeited to the Police Department.

SUPPORT DIVISION

The Office of Planning and Analysis entered into a contract with a vendor to develop and license a crime mapping and crime analysis package. By including the Fire Department and Department of Emergency Medical Services in the contract, considerable cost savings were realized by all three departments. The package, to be implemented in early 2001, will provide the Police Department with automated crime mapping capabilities.

A traffic accident software module was licensed from an outside vendor and incorporated into the Police Department's automated records management system to replace a stand alone module which was not Year 2000 compliant.

Police Systems Support staff, with the assistance of the Department of Communications and Information Technology, purchased and installed a new server and upgraded the operating system for the primary criminal justice records management system. This upgrade assured that the speed of the system will be maintained in the near future and has reduced time spent on some regular maintenance functions.

The Logistics Unit entered into a contract with a vendor to license an automated property and evidence tracking system. This system is currently used by several large and medium-size police agencies in the country. The system will automate many manual tasks now conducted by logistics' personnel and reduce paperwork.

Support Division staff is coordinating the Police Department's participation in a \$1 million project funded by a federal grant which has been awarded to the seven cities in the Hampton Roads region. The purpose of this grant is to install a regional data sharing system between police and other criminal justice agencies, thereby providing criminal justice staff from one city access to another city's data. One outcome may be, for example, that wanted persons now only known by the local agency which has the warrant on file will be known by all other regional police departments, increasing the chance of arrest.

ADMINISTRATIVE SUPPORT TEAM

The Virginia Beach Police Department Administrative Support Team (AST) was established in 1999. In 2000 the team continued its work toward assisting command personnel by promoting improved communication within the department.

One of the major accomplishments during 2000 was the development of a dress code for civilian personnel. Stakeholders were involved in discussions and a survey of all civilian personnel was conducted. A final recommendation was made to the command staff and the dress code policy was adopted on October 2, 2000.

An additional project in 2000 was a review and update of the procedures to be followed for letters of appreciation/recognition/commendation. Those procedures were approved by command staff in February 2001 and will be distributed following the next printing of revised general orders.

Also addressed in 2000 was a procedure for the nomination and presentation of Class Act Awards.

Several other projects are ongoing:

- review of all forms in use in the Police Department - this review is being conducted in conjunction with the department's Strategic Planning Team with the objective of reducing the number of forms being used by department personnel.
- development of a Position Manual for each member - this will provide an immediate reference for any individual who may be required to undertake those duties during periods of extended absence.

The AST is currently revisiting its charter to include team composition, and roles and responsibilities. This is being done to ensure the best possible representation for all administrative support members.

ACHIEVEMENTS

January 2000
The Police Chief's
Youth Advisory Council
convened for the first
meeting. Chief A.M. Jacocks,
Jr. formed the council to
foster communications
between the Police
Department and our
City's youth.

September
2000
Virginia Beach Police
Department's first Community Service
Officer Academy. Community Service
Officers provide assistance to
stranded / disabled motorists and
handle low priority calls for
service.

Find-A-Kid 2000
Campaign Established.
Sgt. Kurrle, MPO R.
Ricketts, and Mary Pat
Fortier of the Hotel Motel
Association form program to
ask parents to have their
children 10 and under to
wear a wrist band that
reflects the oceanfront hotel/
motel where they are
staying.

Veteran of
Foreign Wars
Officer of the
Year 2000
MPO Scott E.
Wichtendahl

Detective Eric Beard
presented Public Service
Award by the U.S.
Attorney for
partnership with the
Federal Bureau of
Investigation.

Iron Dog Triathlon
MPO T.C. Hall & dog Rhett , MPO J.
Hewlett & dog Ciro 1st Place Team
Competition.
MPO A. Turner & dog Eddy 1st Place
Women's Event.

Lt. Doug Backman named
Instructor of the Year 2000 by the Virginia
Community Policing Institute.

Tough Dog Triathlon
MPO Jimmy Hewlett and
dog Ciro 1st Place Overall
Champion.
MPO Carila and dog Rocky
2nd Place Team Competition.

Detective Timothy Fogarty,
Detective Shawn Hoffman,
and Detective Michael
Sanderson presented Public
Service Awards by U.S.
Attorney for partnership
with Federal Bureau of
Investigation and for Project
EXILE.

April 2000
First Virginia
Beach Police
Department
Citizen's Youth
Academy
begins.

First Charles R. Wall
Award School Resource
Officer of the Year
Officer A.D. Evans and
Officer T.K. Goldsmith.

Crime Solvers Clyde
Hathaway Award Officer
Annette Pennypacker and
Officer Chris Molleen for
solving a homicide with the
assistance of Crime Solvers.

U.S. Attorney Public Service Ward
for developing substantial
information on a drug trafficking
enterprise Detective John
Kozlowski.

Khedive Shriner's
Motorcycle Rodeo
1st Place Team Slow
Ride & 2nd Place
Individual Obstacle
MPO Jim Medlin.

Top Cop
Fitness Challenge
Officer Cassondre
Whited 1st Place
Women's Division.
MPO Officer Eileen
Skurkis 2nd Place
Women's Division.

September
2000
Virginia Beach
Police pass fourth
on sight inspection
for accreditation
by CALEA

Year 2000 "Top Cop Award"
MPO Lester Hayes.

Virginia
Beach Schools
Volunteer of the
Year & Ocean
Lakes High
School's Volunteer
of the Year MPO
Jim Iman

March
2000
Special
Operations hosts
state DUI
Conference to
satisfy a need for
training in DUI
enforcement and
prosecution.

Outstanding
Humanitarian
Award Chaplain
Donald Staton given by
the American Legion
Post 110 of Virginia
Beach.

Incident Based Reporting

Incident Based Reporting (IBR) is a new federal and state system for collecting and reporting crime data. In 1999, the Virginia Beach Police Department began its efforts in complying with the state requirements by collecting the data in the new format and in 2000 our department submitted its first complete year of IBR compliant data to the state.

Three major differences exist between the new IBR system and the old reporting system of UCR, Uniform Crime Reporting. First is the expansion of the eight UCR Part I crimes to 22 IBR Group A Crimes. Many of the offenses previously recorded in the Other Reported Offenses Report are now included in the Group A Crimes list. Second is the method of submitting data. Under the UCR system, summary data was submitted for the Part I offenses and arrest categories. Under the current IBR system, up to 144 data elements for each incident and arrest are submitted. And finally, under the IBR requirements each offense (the crimes) that occurs during the incident (the event) is counted. Under the UCR rules, only the most severe offense is counted. For example, if a rape and robbery occurred in the same incident, under IBR both the rape and robbery would be counted, under the UCR only the rape would be counted.

IBR requires strict adherence to rules set by the state. If a rule is not strictly followed, the incident cannot be submitted. This sometimes occurs when information required by the State conflicts with the facts of the case.

Please note that the figures on this report may differ from those released at the local level. This discrepancy is due to the strict requirements for submission. The Virginia Beach Police Department will continue to provide data in the UCR format so that comparisons and trends can be identified using the same methodology. Comparisons between UCR data and IBR data should not be made due to different collection methods.

Refer to the following resources for more information about Incident Based Reporting.

U.S. Department of Justice, Bureau of Justice Statistics: <http://www.ojp.usdoj.gov/bjs/nibrs.htm>

Virginia State Police: <http://www.vsp.state.va.us/dataprocessing.htm>

* 1991 - 1999 population figures estimated by the

Weldon Cooper Center at University of Virginia.

2000 population reported by Census Bureau from 2000 Census.

TRAFFIC STATISTICS

In 2000, there were 8,804 reported traffic accidents in the City of Virginia Beach. Of these accidents, 25 were fatal which resulted in 28 fatalities.

? Of the 25 fatalities occurring in 2000 where seatbelts were available for use, 14 (56%) were not wearing seatbelts. These figures do not include accidents involving motorcycle, pedestrian, or bicycle fatalities.

???? Of the 25 accidents 8 (32%) were alcohol/drug related, with 7 drivers and 1 pedestrian being under the influence of alcohol. Seven of the 8 were legally intoxicated (.08 BAC or higher) and there was one refusal.

? In 4 (50%) of the alcohol related fatal accidents the victim was using the alcohol.

? Of the 25 fatality accidents 17 (68%) involved motor vehicle drivers who were at fault in the accident.

? Of the fatal accidents in 2000, 8 (32%) occurred between the hours of 11 p.m. and 7 a.m.

? In the 25 fatal accidents, 19 (76%) of the individuals at fault were male.

? There were no pedestrians killed in 2000 which is a decrease from 5 in 1999.

? In the fatal accidents occurring in 2000, 5 of the victims were under the age of 21.

? There were 8,804 reported accidents in 2000, a 2.7% decrease from the 9,046 reported accidents in 1999.

? Of the 8,804, 598 (7%) were alcohol/drug related. This percentage has remained constant over the past 5 years. 256 (10%) of the 2,672 personal injury accidents were alcohol/drug related.

? There were 1,988 hit and run accidents in 2000 compared to 2,108 in 1999, a 5.7% decrease.

? In 2000 there were 106 pedestrians hit by motor vehicles. This was 1.2% of the total accidents for 2000.
