Bibliographic Description

ICPSR Study No.: 4634

Title: Law Enforcement Agency Identifiers Crosswalk [United States], 2005

Principal Investigator(s): National Archive of Criminal Justice Data

Series: Law Enforcement Agency Identifiers Crosswalk Series

Funding Agency: United States Department of Justice. Office of Justice Programs. Bureau of Justice Statistics

Bibliographic Citation: National Archive of Criminal Justice Data. Law Enforcement Agency Identifiers Crosswalk [United States], 2005. ICPSR04634-v1. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 2007-01-10. <http://doi.org/10.3886/ICPSR04634.v1>

Scope of Study

Summary: The crosswalk file is designed to provide geographic and other identification information for each record included in either the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) Program files or in the Bureau of Justice Statistics' Census of State and Local Law Enforcement Agencies (CSLLEA). The main variables each record contains are the alpha state code, county name, place name, government agency name, police agency name, government identification number, Federal Information Processing Standards (FIPS) state, county, and place codes, and Originating Agency Identifier (ORI) code. These variables allow a researcher to take agency-level data, combine it with Bureau of the Census and BJS data, and perform place-level and government-level analyses.

Subject Term(s): crime mapping, crime patterns, databases, information systems, law enforcement agencies

Smallest Geographic Unit: city

Geographic Coverage: United States

Time Period: • 2005

Date(s) of Collection: • 2006

Unit of Observation: police agencies

Universe: Law enforcement agencies included in either the Federal Bureau of Investigation's Uniform Crime Reporting Program files or in the Bureau of Justice Statistics' Census of State and Local Law Enforcement Agencies.

Data Type: aggregate data

Methodology

Extent of Processing: Performed consistency checks.

Performed recodes and/or calculated derived variables.

Checked for undocumented or out-of-range codes.

Access and Availability

Note: A list of the data formats available for this study can be found in the [summary of holdings](#). Detailed file-level information (such as record length, case count, and variable count) is listed in the [file manifest](#).
