BUILDING 11
2509 PRINCESS ANNE ROAD
VIRGINIA BEACH, VA 23456-9064

Dear Mr. Spore:

I am pleased to present you with the 2014 Annual Report. This report provides selected highlights of the many accomplishments, initiatives, and programs involving the dedicated men and women of the Virginia Beach Police Department. The report also includes a statistical review of reported crime, calls for service, traffic data, and crashes.

The Department achieved many accomplishments this past year. The Traffic Safety Unit placed 2nd in the Commonwealth in the Virginia Law Enforcement Challenge for traffic safety and was also recognized for our bicycle/pedestrian safety. In addition, the Traffic Safety Unit was awarded the 2014 John T. Hanna Award/Martin H. Schlosser Award for Traffic Safety Activism. The Virginia Beach Police Department won the Hampton Roads Employer Inclusion and Diversity (HEIDI) Award. The award is presented to local, state, federal, business or non-profit organizations that exemplify diversity and inclusion practices and demonstrate results in the community.

I am pleased to report that the 2014 Part I Crime rate for Virginia Beach continued to decline. Additionally, violent crimes in Virginia Beach comprised only 6.7 percent of our reported Part I Crimes. The Part I Crime rate for violent crimes is 1.5 per 1,000 residents. We also continue to maintain a crime clearance rate well above the national average for cities of similar size. Our continued low crime rate and above average clearance rate are the result of our exceptionally talented sworn and civilian members and the high level of involvement by members of our community.

I am honored to lead such a talented, diverse, and committed team of officers and civilians as we continually seek to fulfill our mission: providing a safe community and improving the quality of life of our citizens. As always, I appreciate your continued support and that of City Council.

Sincerely,

James A. Cervera
Chief of Police

Mission Statement, Vision, & Core Values

MISSION STATEMENT

The Virginia Beach Police Department is committed to providing a safe community and improving the quality of life for all people. We accomplish this by delivering quality police services and enforcing laws with equity and impartiality. In partnership with the community, we reduce crime through public awareness. In meeting this objective, we demand of ourselves the highest professional standards and dedication to our core values.

VISION

The Virginia Beach Police Department will be the premier law enforcement agency setting the standard for excellence. Committed to those we serve, we adapt to change, while focusing on value-based principles, lifelong learning, and professional growth.

CORE VALUES

Professionalism...in our actions, conduct, and job performance. Constantly striving towards ever-rising standards.

Respect...for all citizens, each other, and for differing points of view, regardless of age, race, gender, appearance, individual beliefs, or lifestyles.

Integrity...truthful and honest, deserving of trust. Ethical. Being guided by the concept of fundamental fairness in everything we do. Doing what is right.

Dedication...to the organization, each other, our families, and the citizens we serve. Unquestionable work ethic.

Excellence...in everything we do. Seeking to improve and excel, always.

PRECINCT MAP

Virginia Beach Police Department
Police Precincts
2014

DIRECTOR'S OFFICE

DIRECTOR'S OFFICE Chief James A. Cervera

Community support and trust are integral aspects of the relationship between citizens and police. The Virginia Beach Police Department continues to foster positive relationships within the community. Chief Cervera believes this is critical to our efforts to reduce crime and the fear of crime, as well as work to achieve a primary goal of the City of Virginia Beach: "Creating a Community for a Lifetime."

In 2014, the department started Juvenile Perspective training. The training combines scientifically derived information on brain development; adolescent behavior under normal, compromised, and/or

traumatized conditions; cultural influences; the history of the juvenile justice system; and revised processes in accommodating the needs and developmental challenges of children involved with the police and the juvenile justice system. The goal of the program is to minimize the detention of youth and place more of an emphasis on effective strategies for intervention and rehabilitation. In February of 2014 approximately 20 members of the Virginia Beach Police Department were selected to attend a train the trainer class. Also in attendance were several members of the Virginia Beach Juvenile Court Services Unit, the Virginia Beach Department of Human Services, Tidewater Youth Services, Virginia Department of Juvenile Justice, and Police Officers from Norfolk, Virginia and Charlottesville, Virginia. The first coached training was administered during the spring of 2014 to the Virginia Beach Police Academy recruits. A second delivery occurred in the fall of 2014 to a second class of recruits. The training was well received and participants provided positive and enthusiastic feedback. We have achieved a foundation upon which we have delivered training to new recruit officers and we look forward to re-training our incumbent officers in this area.

Virginia Beach Police Department was challenged by the Norfolk Police Department to participate in the ICE Bucket Challenge. On Thursday, August 28, 2014 Chief Cervera, along with his Command Staff and other department members accepted the challenge. The Ice Bucket Challenge was a social media campaign to raise awareness about ALS, also known as Lou Gehrig's disease. The Virginia Beach Police Department supports community awareness and education in all worthwhile endeavors, and the Ice Bucket Challenge was a fun way of showing our support.

IN THE SPOTLIGHT: T.U.F.F.

One Saturday afternoon in 2007, Master Police Officer David Nieves and his wife, Nayla, took their excited 12-year-old son to his first practice for the Green Run Recreation League football team in Virginia Beach, VA. They arrived to find 12 other waiting children in total disarray, with no coach and no plan. In that moment, Officer Nieves also became Coach David, and Nayla Nieves became chief organizer, volunteer recruiter, cook, and cheerleader. The nervous 12-year olds became The Spartans, who soon won the Recreation League Football Championship of Virginia Beach.

Master Police Officer Nieves has gone above and beyond the title of coach. Having come from a similar background as many of his athletes he knew that these at-risk children needed to know more than the basics of football. Many of these kids were runaways, abused, forgotten and troubled. He and Nayla developed a full program of goal setting, community service and building self-esteem for the team. Some children needed food, shelter and tutoring at points during their four-month season. Providing for these basic needs was also incorporated into the program.

Season begins with a camping trip, 4 days of waking before 5 AM to run on the beach at sunrise, team exercises and nutritional instruction. In order to earn their football jerseys, team members also plan community service activities to perform once the camping trip has ended. During the season there is a lesson every week from the Spartan Character Foundations Program. The lessons cover topics like perseverance, humility and honesty. When a player demonstrates one of these traits they are rewarded with a helmet decal.

Now an organization of 200 kids and more than 35 adult volunteers, TUFF helps children deal with issues such as single parent homes, anger, hunger, loneliness, gang recruitment, and homelessness. It also takes children on field trips to their state capital, Richmond, to meet their delegates and to learn that they too can look to a future of being a member of the House of Delegates. All they have to do to succeed is live the fundamentals taught by their coach. This extraordinary program, begun by a police officer and his family, has garnered The Freedom Foundation at Valley Forge National Award. TUFF has applied for 501(c) 3 status.

All of their efforts paid off with the Spartans winning 13 combined football championships from all age groups since 2007.

OPERATIONS DIVISION

ENHANCED OCEANFRONT OUTREACH

As a result of an influx of homeless individuals residing at the Oceanfront, the Department of Human Services (DHS), Department of Housing and Neighborhoods Preservation (DHNP), and the Virginia Beach Police Department 2nd Precinct (VBPD) launched the Enhanced Oceanfront Outreach Initiative in 2014 through the City of Virginia Beach. Current membership includes the following City departments: Human Services Department, Housing and Neighborhoods Preservation, and the Police Department as well as members from the business community, non-profit organizations, faith-based organizations and tourism industry. In July 2014, the City of Virginia Beach began funding an outreach and engagement initiative to support the Virginia Beach Enhanced Oceanfront Outreach Initiative. The stakeholders projected that approximately 50 adults could be served in 2014 through the Initiative using a triage team approach.

The Human Services Department was the service provider tasked with initial outreach and service coordination. The

Peer Outreach Specialist

Case Manager ensured that all parties coordinate efforts and holistically address service gaps and service planning for the target population through intensive coordination and communication. The Outreach Triage Team identified and facilitated necessary service linkages and explored opportunities, while working to maintain engagement with the individuals. Six (6) part-time Outreach Peer Specialists were hired to holistically address service gaps for the target population. All of the Outreach Peer Specialists are former homeless individuals who, having overcome their conditions were able to effectively engage and encourage the use of community support services.

MLK LAKE EDWARD COMMUNITY EFFORT

On Monday, January 20, in honor of Martin Luther King Day, Officers from the Police Department's 3rd Precinct partnered with the Lake Edward Civic League, Virginia Wesleyan College, and Western Bayside Churches United to pick up trash in the Lake Edward Community. Approximately 75 people participated in an effort to promote a clean, crime-free neighborhood and to make the community a better place to live. The event concluded with a service at Virginia Wesleyan College honoring the legacy of Dr. Martin Luther King, Jr.

POLICE BUILD-A-BEAR

When Nikki Montegomery's daughter Anna screamed "Don't shoot my mommy" and cried when she saw a police officer inside Lynnhaven mall, she had no idea that her 4-year-old daughter was actually grasping some of the news on television about the police violence in Ferguson. "We had to figure something out. I don't want her to get into a situation where she got separated from me, and she needed to talk to an officer and she was afraid," she said. She came up with the idea to call a friend in the police force, and ask to set up a meeting to teach her daughter not to fear police.

Capt. Patrick Gallagher received the message and asked Sgt. Scott Merce to help come up with a plan to show a little girl that police are here to protect. Typically we hand out stickers to kids but Capt. Gallagher told Sgt. Merce he wanted to do something special. Members of the 4th Precinct took matters into their own hands and presented Anna with a Build-A-Bear police officer as a sign of good will and a desire to convert her opinion of police officers into something positive. We may not be able to change the minds of everyone, but it was worth the effort to make a 4-year-old feel better about the police and to bring a smile to this wonderful little girl. After hearing about the actions of the officers at the 4th Precinct, the Build A Bear corporate office sent the command five additional Police Bears.

These bears are willing and able to go into action. They are available at the precinct and, when needed, an officer can have one delivered to their location to provide to a child in need.

DANCING WITH THE SENIORS

The Sandler Center for the Performing Arts hosted members of the Virginia Beach Police Department during their "Atlantic Shores' Dancing with the Seniors" program on March 25, 2014. Capt. Dennis Hebert of the Virginia Beach Police Department's 3rd Precinct, along with 10 police officers, made a special appearance at the program where lucky dance participants were partnered up with the officers. The program, which is free and open to Seniors aged 60+, is sponsored by Atlantic Shores Retirement Community. The program is in partnership with Senior Services of Southeastern Virginia and is led by Marquita Bianca, one of Hampton Roads' most renowned dance instructors and owner of BailaFuzion Dance Company in Virginia Beach. Participants in the program learn ballroom, Latin, cultural, line dances, and more throughout the eight instructional sessions. The series will conclude with a "Senior Prom" on May 22, to allow participants the opportunity to demonstrate their newly developed dancing dexterity.

OPERATIONS DIVISION

NEIGHBORHOOD SURVEYS

In August and September, officers began canvassing many local neighborhoods to collect information relating to the residents' perception of safety. Officers solicited feedback regarding the residents' opinions of how the department performed over the past year. These conversations included seeking advice on how to build and enhance stronger relationships between the citizens we serve and the department.

Over 70 sworn officers participated, including most of the department's top leadership. Chief Jim Cervera, his three Deputy Chiefs and the entire command-staff were among those going door-to-door

to engage the community. These surveys were developed, in part, to support the Mayor's Action Challenge. In addition to speaking with citizens, officers distributed information pamphlets pertaining to crime prevention tips and other data to help citizens become more involved in their community. The majority of the community comments were extremely positive and encouraging.

STOP THE VIOLENCE

In early 2014 several homicides occurred in the Western Bayside area of Virginia Beach. In addition to the normal increased patrols and investigative work, the Police Department's 3rd Precinct partnered with the community and on April 24, 2014 police officers, citizens and faith based organizations walked through Lake Edward to promote peace in the neighborhood and to deter violence. During the summer months various community events took place with an emphasis on creating "safe neighborhoods." On September 5, 2014 the 3rd Precinct Command met with concerned citizens who were interested in working with the police and the faith based community to develop an action plan to improve the safety of the community. During the initial meeting attendees realized that this needed to be an ongoing process and it was decided that monthly meetings would be held and other city agencies would be invited to attend. The meetings have proven to be beneficial as citizens learned how to communicate with one another and the Police Department through NextDoor.com. The initiative has led to an increase in communication between the police and citizens. The most positive aspect resulting from this initiative is citizens' desire to be involved and are taking ownership of their community.

Each of the meetings has been well attended with approximately 70 citizens in attendance. A special presentation was given by Crime Prevention regarding NextDoor.com and the importance of knowing and communicating with your neighbors. The majority of attendees signed up on-line during the presentation. One of the key results of this initiative has been the strengthening of the relationship between the police, the community, and faith based organizations.

CRIME PREVENTION IN THE COMMUNITY

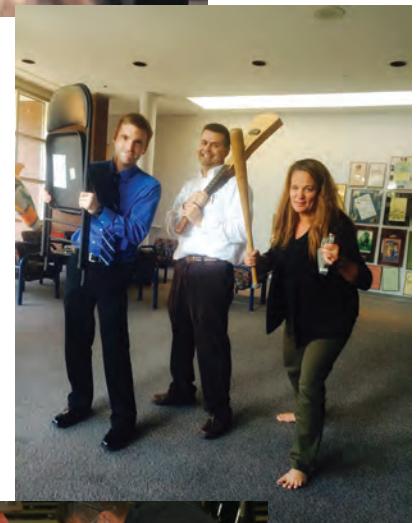

In 2014, the Crime Prevention Unit continued to work towards its goal of raising awareness and enhancing safety through the use of various community engagement and educational strategies. Their outreach initiatives included, but were not limited to, participation in community forums and events, the continuation of our Citizens' Police Academies, and an enhanced use of social media to engage both our citizen and business communities.

In April 2014, Crime Prevention hosted an Airsoft Safety and Awareness Seminar. With the increased popularity and availability of airsoft types of guns there was a need to provide awareness and have an open discussion about the safety of these items. The seminar was intended for those who had no previous knowledge of these guns and for people who regularly use them. Awareness, knowledge and safety of airsoft types of guns were the focus of the event and included some hands on activities for attendees.

Other Highlights of the Crime Prevention Unit's 2014 engagement efforts included hosting the 2nd Annual Human Trafficking Forum, the coordination of the 31st National Night Out, enhancement of the Neighborhood Watch Program through the increased use of the social networking site NextDoor.com, and the continuation of our efforts to educate teenagers about the dangers of drunk and distracted driving via the "Every 15 Minutes" program.

In addition to these public forums and displays, they also provided a number of educational opportunities which focused specifically on enhancing the safety and security of City personnel, to include a "Lunch and Learn" series of training classes on various crime prevention topics, Active Shooter instruction, and an 8-hour course to enhance awareness of crime prevention through environmental design principles.

In the last few years, active shooter events occurring nationwide have generated an atmosphere of fear and anxiety in our communities; this is especially true regarding our schools and children. The safety, security and well-being of our children and the individuals devoted to their caretaking is a concern and priority for both citizens and law enforcement alike. In light of recent events, the Virginia Beach Police Department has partnered with the VB Public Schools to provide Active Shooter training.

OPERATIONS DIVISION

JOINT TRAINING

The Virginia Beach Police Department participated in Active Shooter and Aircraft Accident training exercises at both Navy Joint Expeditionary Base Little Creek and Naval Air Station Oceana. Each event involved a practical scenario that occurred on base and required an integrated response by Base Police, Military Emergency Response Personnel and members of the Virginia Beach Police Department. Planning and communication between department members and military representatives is extensive for each of these training and assessment evolutions. These cooperative

efforts increase the operational awareness and effectiveness of all entities involved and facilitates enhanced communication capabilities. It is understood that in the event of a real life critical incident, an integrated response is essential for the successful conclusion of a large scale criminal act or disaster on a military installation within our City.

2014 VIRGINIA LAW ENFORCEMENT CHALLENGE AWARDS

The Police Department was recognized in 2014 for our traffic safety efforts during 2013 by the Virginia Law Enforcement Challenge. The department took 2nd Place in Virginia in the 701 + sworn officer category, and also won the Special Category Award in Bicycle and Pedestrian Safety. We are particularly proud of the collaboration and efforts that went into earning the Bicycle and Pedestrian Safety Award. In 2011, the Police Department's Planning and Analysis Unit noticed a relatively high number of bicycle crashes, 117 in total. Using this information in 2012 the Virginia Beach Police Department in conjunction with Traffic Engineering, Parks and Recreation, along with a number of other city departments, devised several solutions to identify problem areas. In order to guide the City's efforts toward improving bicycle safety, Mayor William D. Sessoms, Jr. created the Bicycle Safety Task Force, which brought the City staff and cycling community together for a common goal of roadway safety. This task force works in conjunction with the City's Bikeways and Trails Advisory Committee. The objective of these two entities is to implement the city's Bikeways and Trails Plan in an efficient manner. This plan continues to be the driving force behind the efforts to keep our motorists, bicyclists, and pedestrians safe.

ANIMAL CARE AND ADOPTION CENTER

For six consecutive years, the Animal Care and Adoption Center has shown statistical improvement in adoptions and live release overall with a trending decrease in euthanasia rates. In 2014, the live release rate for dogs was 91% and for cats was 57% with a total of all species release rate of 77%. This was a 5% percent increase from 2013. In addition, the volunteer program is thriving with consistent increases in donated service hours totaling 35,000 service hours provided. There was a 15% increase in foster parents in 2014 compared to 2013. Outreach initiatives and training opportunities provided by the center continue to rise. The consistent improvement can be attributed to the mission oriented approach by the Center's leadership team, staff and volunteers. The shelter posts clever photos of adoptable animals to facebook, twitter, and petfinder.com to increase adoptions.

SHELTER FLOAT WINS NEPTUNE FESTIVAL PARADE AWARD

The Animal Care and Adoption Center recruited several volunteers with the talent to piece together a float worthy of the grand prize for the Neptune Festival Parade held September 27. And wouldn't you know, the float captured the King's Award. After months of work by many volunteers, the float was ready for judging that morning. The "Snoopy" themed float was constructed with 40 pallets, lumber, plywood, chicken wire, hundreds of hand-made tissue paper flowers, and a larger than life Snoopy sculpted by the way of papier-mache. The float was an eye catcher, to say the least. At parade's end, dogs were thirsty and the walkers, tired.

ANIMAL CONTROL

The Animal Enforcement Unit (AEU) had the opportunity to again partner with the Virginia Department of Game and Inland Fisheries due to an increase of Black Bear sightings throughout our city. These cases resulted in two of the bears being captured and relocated, and 1 being euthanized due to being hit by a car. The unit issued 1,338 summonses, and initiated 77 charges of animal cruelty including serious felony cases drawing local media attention during 2014. During the summer season the AEU conducted planned patrols on the public beaches to enforce city regulations and ensure the safety of beach goers.

Animal Control Statistics	Total
Dispatched Calls	26,008
Stray Dogs Impounded	2,554
Stray Cats Impounded	2,443
Dogs Turned In By Owner	742
Cats Turned In By Owner	385

Animals Transferred To Rescues	340
Dogs and Cats Euthanized	1,549
Animal Bite Reports	1,530
Animal Cruelty Investigations	198
Cruelty Complaints	1,945

INVESTIGATIVE DIVISION

COLD CASE UNIT SOLVES 24 YEAR OLD HOMICIDE

Seventeen-year-old Joan Schoppaul was last seen on the morning of Tuesday, December 4, 1990. She was to return home after visiting a friend. She never arrived. Her worried parents filed a missing persons report and within 24 hours of leaving home, Joan's body was found on Wednesday, December 5, 1990. She had been wrapped in a blue sleeping bag which had been disposed of in a dumpster behind the former Food Lion Supermarket located at 4740 Baxter Road. She was transported to the State Medical Examiner's Office for autopsy. The manner of death was ruled a homicide.

After exhausting all leads over the years, Joan's homicide was reassigned to the Cold Case Unit. Virginia Beach Cold Case detectives tirelessly and methodically reworked the case bit by bit, looking for the missing puzzle piece. Using advanced technology and current forensic techniques to further their investigation, they were able to identify a suspect. On December 15, 2014, with the assistance of the Pennsylvania State Police, Troop "E" Criminal Investigative Unit, detectives located and arrested Robert William Malick. He was charged with Second Degree Murder.

YOUTH AND COMMUNITY APP

The Virginia Beach Police Department is dedicated to assisting juveniles and their families. Traditionally we have engaged juveniles in times of crisis, which usually resulted in a referral or arrest. There

has been a recent trend to address juvenile and family problems before they rise to the level of criminality. The Police Department is taking the initiative to assist those who find themselves in need of services that are outside of the traditional police response. As a result, the Detective Bureau in conjunction with the Pendleton Child Service Center, has developed a mobile App (Youth and Family Services) that offers services to those in need. Officers now have another intervention tool available to them when encountering a juvenile or family struggling with ways to deal with behavior that is not criminal in nature but could be down the road if not addressed.

The new Mobile App is located in the App Store under VB Connect. Once downloaded, click on the menu at the bottom left and scroll to the bottom (Youth and Community Groups). Currently the App can only be downloaded on Android and iPhones. The organizations are listed in alphabetical order with a short description underneath the title.

RUNAWAY DEBRIEF

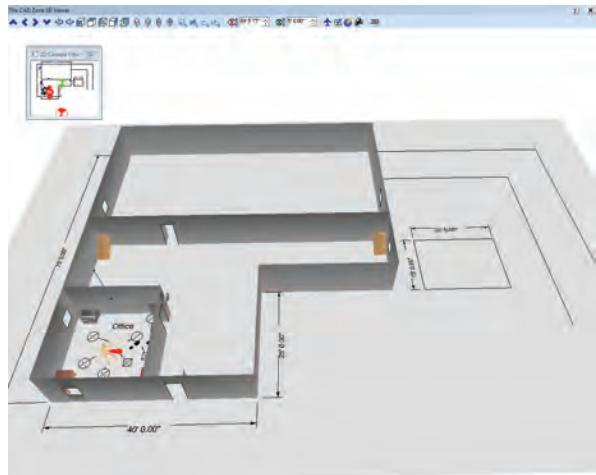

In 2014, the Missing Person's Unit developed a plan to identify and screen at-risk runaways along with the parents/guardians when a runaway is reported. The goal was to work with first time runaways to deter them from becoming habitual runaways. In addition, we also looked at runaways who had criminal histories. Once we had identified an at-risk runaway the detective made contact with the family to set up a home assessment with the parents and the runaway. The Missing Person's Unit developed a debrief guideline which is used by the responding detective to help elicit information from the runaway and parents to try and gain a true assessment of the home environment and the possible reasons the child ran away. During the assessment the family is provided resource information to assist them with any concerns they might have.

This program was implemented in August of 2014 and for the last five months of the year, 68 runaways were identified as at-risk. Of those, 26 of the families chose to allow the detectives to interview them at their home. Many of the families that declined an assessment had already engaged other resources to assist their children. As a result of the interviews conducted, the Missing Person's Unit were able to make eight referrals for follow up to either Juvenile Intake or Child Protective Services.

INVESTIGATIVE DIVISION

FORENSICS

The Forensic Services Unit mission is to serve the victims of crime by objectively investigating crimes through the use of science and technology. The Forensic Services Unit is supervised by Dan Clanton and operated by twenty-three ancillary and civilian staff members that are dedicated to specific fields of forensic science.

In 2014, advanced techniques were implemented to document crime scenes and motor vehicle accidents using Focus 3D laser scanning and SceneVision-3D software. The software allows forensic specialists to produce three dimensional models and animation for investigative guidance and court presentations.

Cell Phone/Mobile Device Case	154

COMPUTER CRIMES UNIT

The Computer Crimes Unit (CCU) received a "cold" online solicitation case involving a juvenile female victim from Virginia Beach communicating with a suspect on Facebook. The case was originally being worked by the Special Victims Unit and they asked CCU for assistance. CCU identified the suspect in less than a week through photos and investigative leads developed through phone calls. CCU detectives received a confession over the phone from the suspect and swore out warrants for use of a computer device to facilitate crimes against a juvenile female in Virginia Beach. The suspect, a North Dakota resident, was arrested and a search warrant was conducted at his residence by North Dakota law enforcement. CCU subsequently received over 100,000 pages of online chat logs between the suspect and numerous individuals, many of them underage females. Over 28,000 images and videos containing child pornography were recovered. CCU has identified 29 victims. The victims are located all across the country and a few are located outside the U.S. CCU has provided the information on the out-of-town victims to the Department of Homeland Security, who is following up on the investigation. The 50-year-old suspect is believed to be a hands-on offender; he solicited juvenile females to perform sex acts, take nude photos of themselves, and sent them nude photos of himself. He is currently in custody on the Virginia Beach charges and awaiting trial.

HUMAN TRAFFICKING

The Special Investigations Vice Unit has focused on addressing human trafficking by directing their efforts on rescuing victims and prosecuting those that cross state lines for the purposes of prostitution. During 2014 the Vice Unit investigated nine cases of human trafficking, which resulted in 19 persons being charged with state and federal offenses related to sex trafficking. More importantly, six adults and five juveniles were rescued from a life of prostitution. The Vice Unit remains committed to this cause and has recently initiated an expanded response involving community partners to provide much needed services to victims of human sex trafficking. It is anticipated that their collaboration with community partners will improve the lives of sex trafficking victims and reduce the likelihood of victims returning to a life of prostitution.

PROFESSIONAL STANDARDS DIVISION

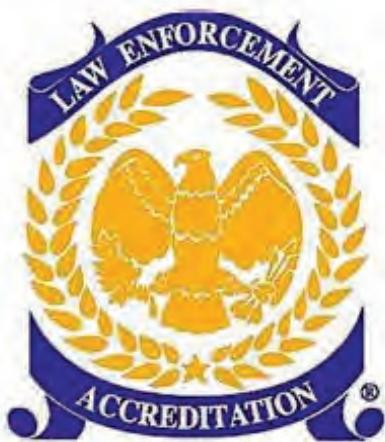

INTERNAL AFFAIRS

The Office of Internal Affairs is responsible for conducting and/or coordinating investigations of all complaints and/or allegations of misconduct involving any member of the Virginia Beach Police Department. In 2014, Internal Affairs facilitated 263 administrative investigations. Of these, 89 were sustained indicating there was sufficient evidence to prove the accused employee violated a department rule or order. Thirty-three allegations remain under investigation. Internal Affairs also act as the Department's custodian of records and in 2014 responded to 1,601 formal requests for information under the Freedom of Information Act, Subpoena Duces Tecums, and court orders for documents.

Administrative Investigations*	Totals
Citizen Complaint	112
Internal Investigation	85
Inquiries	66
Handled as Information Cases	244

Not Sustained	31
Exonerated	42
Unfounded	9
Active Cases	33
Total Allegations	204

*Seventy (78.6%) of the 89 sustained allegations are the result of an internal investigation.

OFFICE OF ACCREDITATION

The Office of Accreditation is tasked with ensuring that Department policies and procedures are based on current national standards and best practices. Accreditation is also responsible for conducting inspections and audits of all commands and members for compliance with policy and procedure. The Virginia Beach Police Department continues to maintain its national accreditation through the Commission on Accreditation for Law Enforcement Agencies (CALEA) as an internal process of inspection, evaluation and development. In 2012, the Virginia Beach Police Department was re-accredited with CALEA, and was recognized as having achieved the Gold Standard with Excellence Award. In April, 2015 the Virginia Beach Police Department will seek its second Gold Standard with Excellence Award when the agency undergoes its next CALEA on-site assessment.

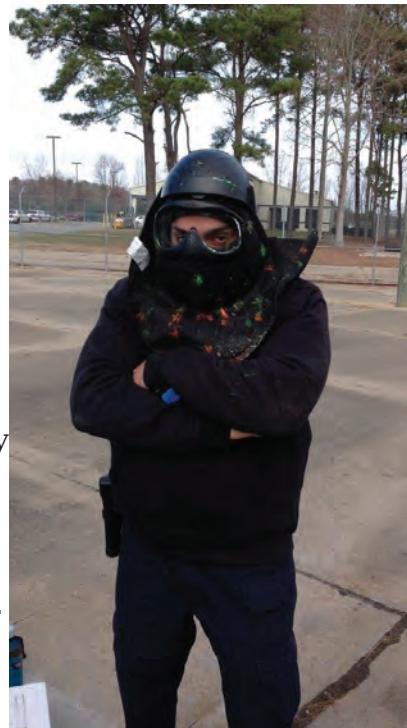

PROFESSIONAL STANDARDS DIVISION

PROFESSIONAL DEVELOPMENT & TRAINING

The Professional Development and Training (PDT) Unit consists of a lieutenant, four sergeants, and 19 officers. The unit manages the recruiting, selection, hiring, basic, and post academy training for the members of the Virginia Beach Police Department, and supplemental training for the associated components of our non-sworn staff. Capt. Theresa Orr and Lt. Jarvis Lynch oversee three separate training facilities spread across two states. The main campus of the Law Enforcement Training Academy houses Sgt. David Sorenson with his scope of responsibility being recruiting, testing, selection, and basic academy training. Sgt. Michele Wyatt manages recruit Field Training, police officer, and first line supervisor training, as well as required ongoing training. Sgt. Nick Brewer is the site supervisor for the Law Enforcement Training Center-Creeds, where a driving track and reality based training facility occupies a 271 acre plot of land and provides specialized training opportunities in force on force, traffic stops, mobile tactics, motorcycle and emergency vehicle operations. This facility is highly sought after by our partner law enforcement and military agencies, with the Creeds staff often acting as the control for outside agencies.

The Firearms Training Unit is supervised by Sgt.

David Hilton and provides first line firearms handling, marksmanship, and shooting on the move training to recruits, as well as mandatory annual training to the department cadre. A staff of six successfully began the transition of the entire department to the Gen 4 Glock 9mm handguns while simultaneously meeting all Department of Criminal Justice and department mandated training for handgun and carbine qualifications.

SUPPORT DIVISION

SUPPORT DIVISION

The Support Division consists of several units that provide administrative and support services to other Virginia Beach Police Department operations, City of Virginia Beach agencies and the public.

RED Means Stop 

Support Division staff members continue to serve as primary liaisons and coordinators with the Department of Communications and Information Technology (ComIT) on police related technology projects. The Integrated Public Safety Records Management project will replace the current automated records management system and computer aided dispatching system, as well as implement mobile field reporting and electronic ticketing during the next three years. Support Division staff members accompanied other department members to cities throughout the country to observe different systems in operation, and attended vendor demonstrations in 2014.

Lt. Bob Christman of the Support Division continued to work, as the department's lead, with Public Works Traffic Operations staff and ComIT staff to substantially expand the Oceanfront security camera system.

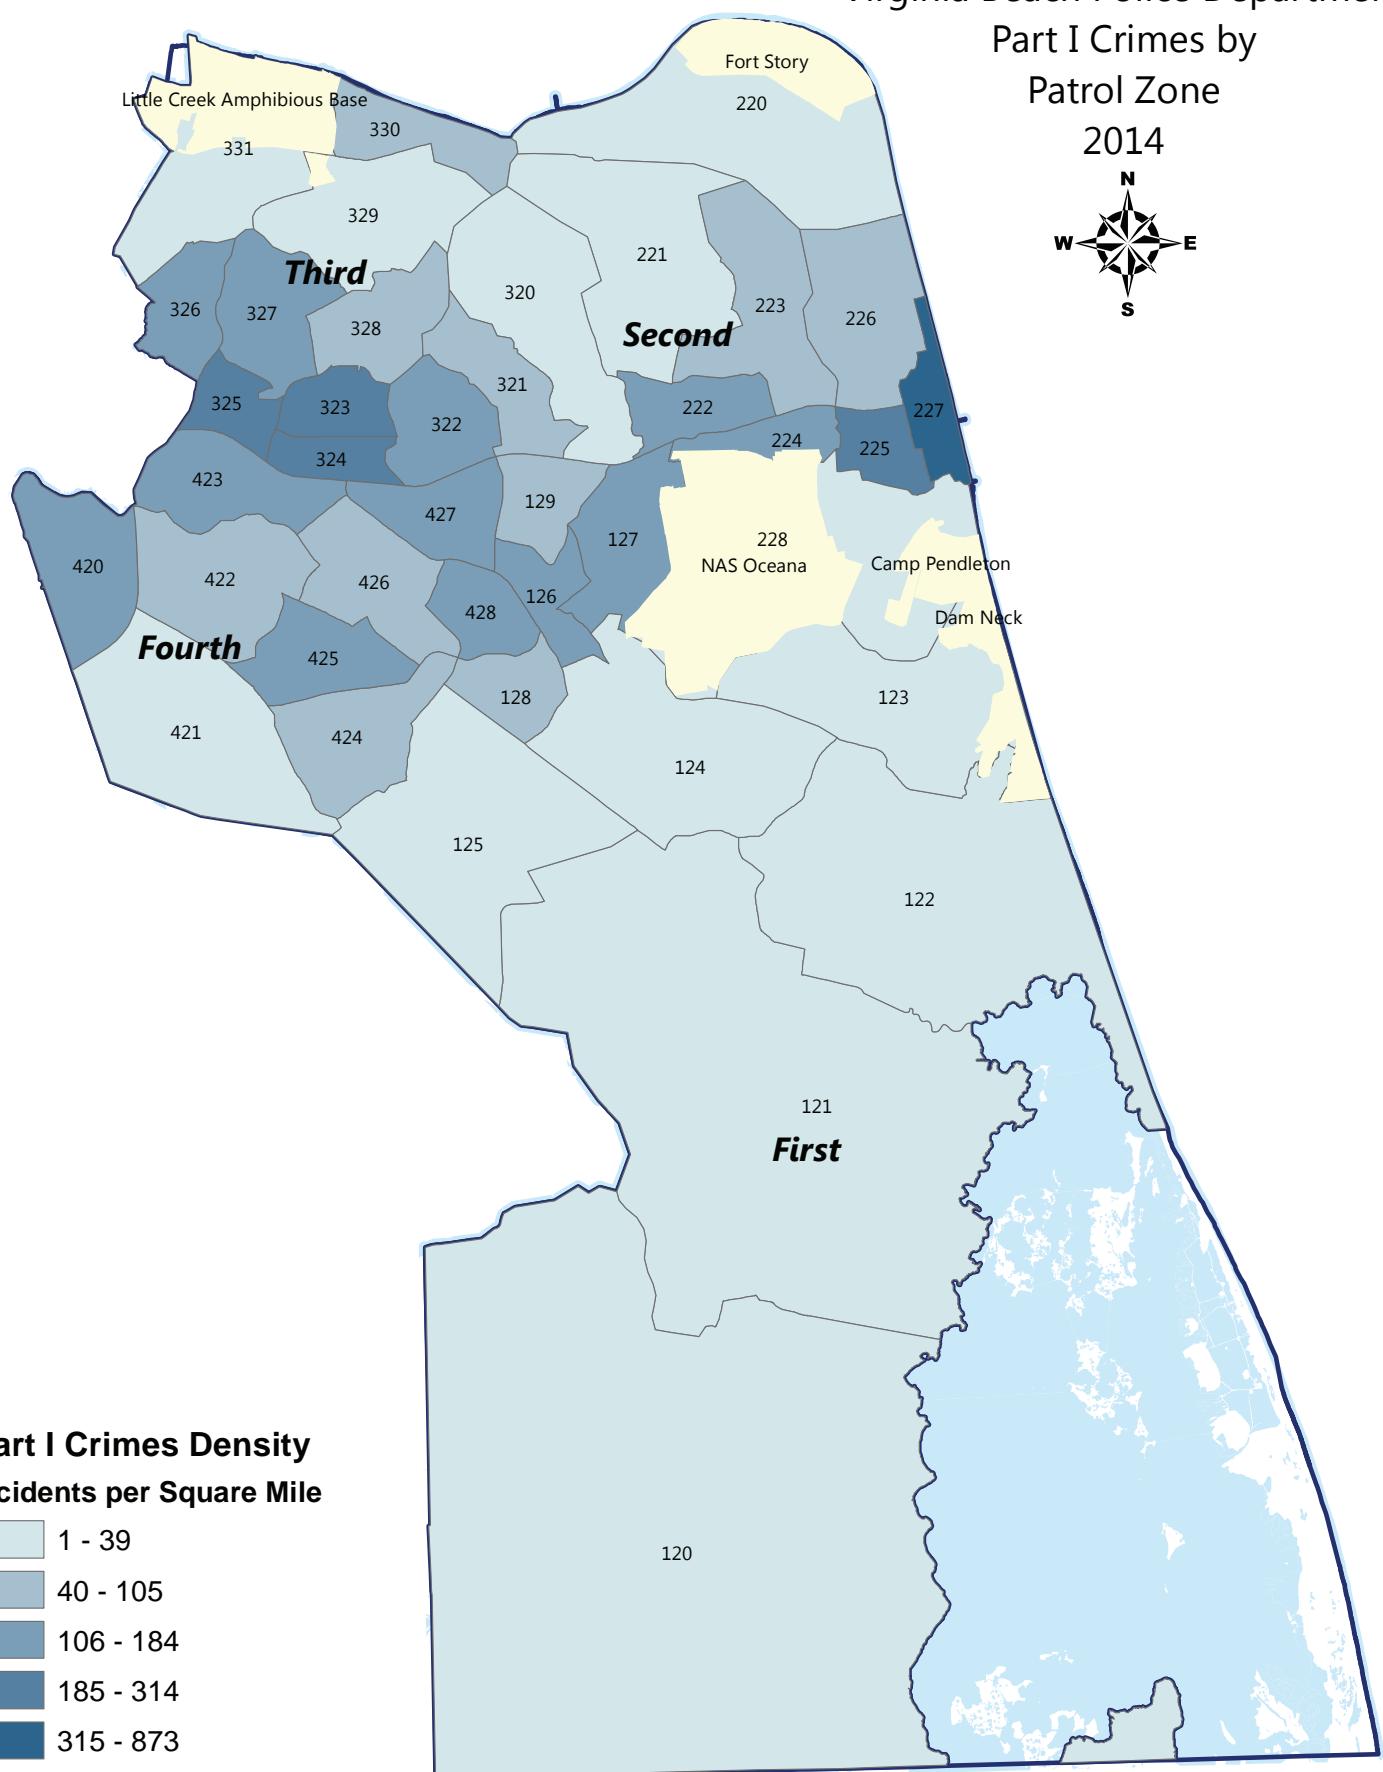

In 2014, the department's Property and Evidence Unit again passed the annual audit conducted by the City Auditor's Office of the cash and jewelry handling processes.

REPORTED CRIMES

Part I Crimes Summary

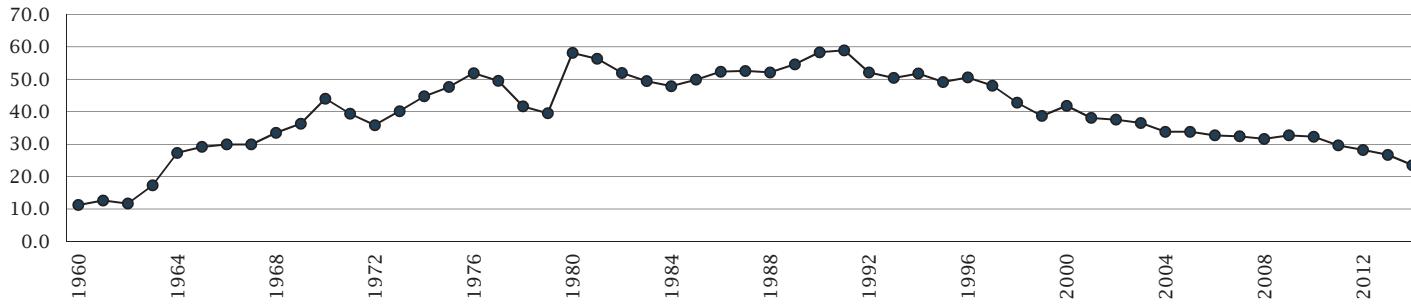

In 2014, the Part I Crime rate for Virginia Beach was 23.2 crimes per 1,000 residents, the lowest since 1963. Violent crime accounted for 6.7 percent of all crime and decreased by 6.4 percent between 2013 and 2014. The violent crime rate in 2014 was 1.5 crimes per 1,000 residents. Property crime accounted for 93.3 percent of all crime and decreased by 12.9 percent between 2013 and 2014. The property crime rate in 2014 was 21.7 crimes per 1,000 residents.

The Virginia Beach Police Department consistently has a clearance rate above the national average. In 2014, the VBPD cleared 71.6 percent of violent crime cases and 29.1 percent of property crime cases. According to the FBI's 2013 Crime in the United States, cities with a population of 250,000 or more had a violent crime clearance rate of 42.2% percent and a property crime clearance rate of 13.8 percent.

VIRGINIA BEACH VS. HAMPTON ROADS

2014 Part I Crime Rate Per 1,000 Residents South Hampton Roads* vs. Virginia Beach

Crime Type	South Hampton Roads*	Virginia Beach	% Difference
Violent Crimes	4.2	1.5	-64.2%
Property Crimes	38.4	21.7	-43.4%
Total Crimes	42.6	23.2	-45.5%

Source: National data from Offense Data Table 16 in FBI Crime in the United States for 2010 to 2013. Includes only cities with populations over 250,000. National crime rates for 2014 are not yet available. South Hampton Roads* rates represent average crime rate per 1,000 residents for Chesapeake, Hampton, Norfolk, Portsmouth, and Suffolk. All crime rates exclude arson.

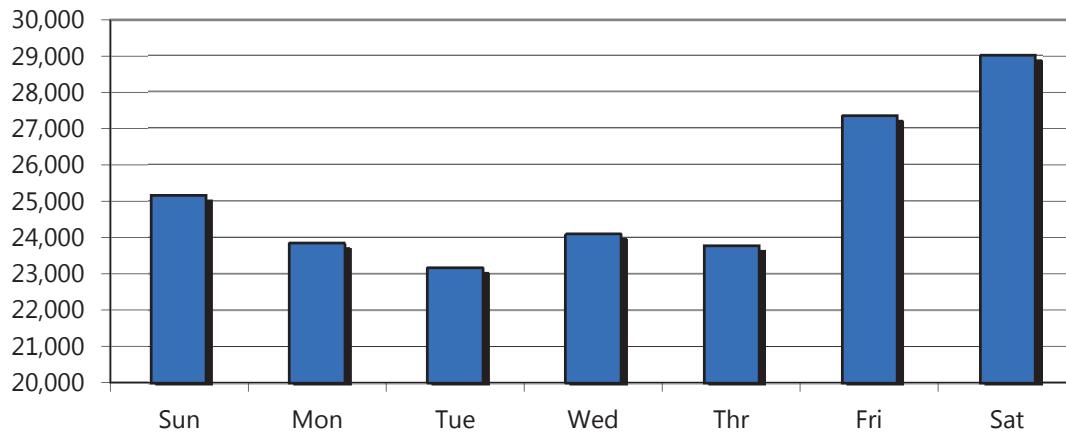

*South Hampton Roads was redefined to exclude Newport News. Newport News crime data was unavailable. Prior year numbers will not match previous reports due to the removal of Newport News.

CALLS FOR SERVICE

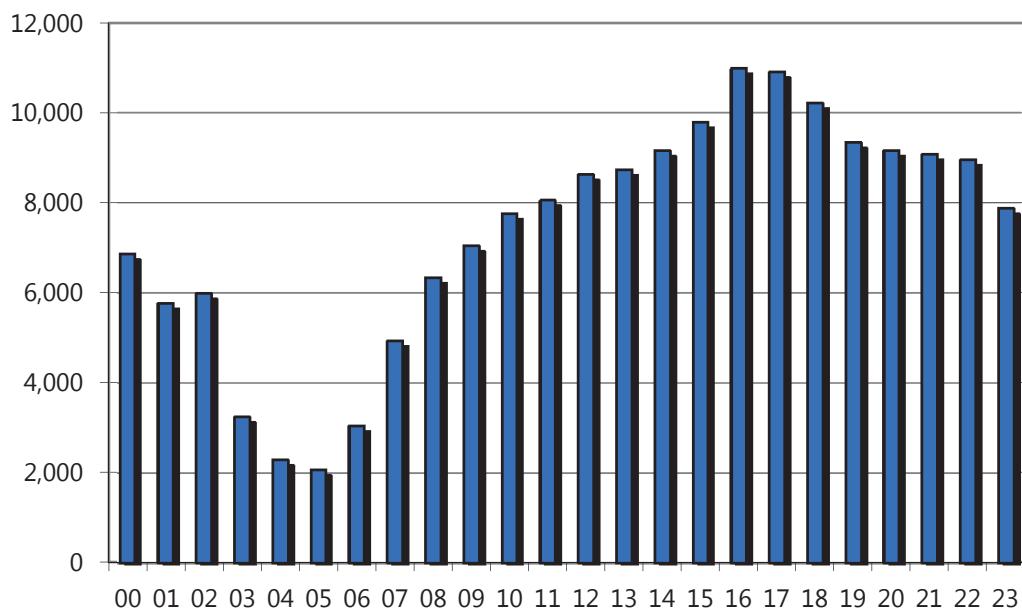

Calls for Service Summary

In 2014, VBPD uniform patrol answered 176,474 calls for service. Total calls were down by almost 2 percent (or 3,500 calls) when compared to 2013. The most frequent call types were Burglar Alarm calls, Assist Citizen calls, Cellular 911 Hang-Up calls and Suspicious Person or Auto calls. Call types that increased in volume between 2013 and 2014 include Warrant Transfer (up by 10.9 percent or 740 calls), Pick Up Prisoner (up by 29.4 percent or 605 calls), and Burglar Alarm (up by 3.5 percent or 512 calls).

2011	8,102	-3.4%	441,246	18.4	9.8%	6.2%
2012	8,169	0.8%	447,489	18.3	21.0%	6.3%
2013	8,138	-0.4%	449,628	18.1	22.5%	6.0%
2014	7,913	-2.8%	451,672	17.5	22.1%	6.2%

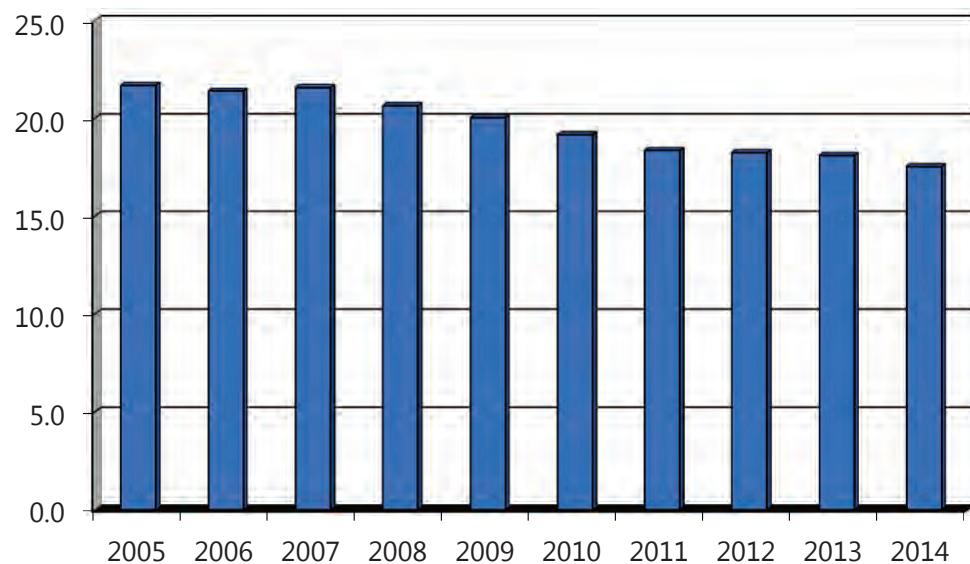

Source: Foxpro Crash Databases/Pistol.

In 2007, changes in procedures resulted in hit and run crashes without injury to no longer require a crash report.

In 2009, changes in Virginia State Code increased the total property damage amount requirement from \$1,000 to \$1,500. As a result, crashes with property damage less than \$1,500 no longer required a crash report.

2005-2009 and 2011-2014 population figures provided by the Weldon Cooper Center. 2010 population reported by the Census Bureau.

Crashes per 1,000 Residents
