DEPARTMENT OF POLICE
OFFICE OF THE CHIEF OF POLICE
(757) 385-8451
FAX (757) 427-9163

MUNICIPAL CENTER
BUILDING 11
2509 PRINCESS ANNE ROAD
VIRGINIA BEACH, VIRGINIA 23456

Dear Mr. Spore:

I am pleased to present you with the Virginia Beach Police Department's **2005 Annual Report**. Reading this report will provide you a glimpse of our experienced staff, crime statistics, and impressive accomplishments. We seek to serve and protect our community members and visitors while consistently exhibiting our Core Values of professionalism, respect, integrity, dedication, and excellence.

Throughout the year 2005, our dedicated men and women have accomplished a great deal. The department continued its leadership development program with the graduation of the sixth West Point Leadership Course. Professional Development and Training continued to enhance and expand recruiting initiatives, conducting a total of three academies with the last two starting just a month apart. Other department activities include the revision of the department's 2005-2008 Strategic Plan; the purchase of state of the art equipment through grant opportunities; continued work with businesses, civic organizations, and Citizens' Advisory Committees; the utilization of our volunteers who contributed over 33,000 hours of service, including Animal Control's new youth volunteer program; and our participation in the Katrina Relief effort.

Our city continues to successfully fight crime through proactive patrol, community policing initiatives, and effective investigations, which are enhanced through our CompStat program. In 2005, the crime rate for Virginia Beach was 33.6 crimes per 1,000 residents, essentially the same as 2004 and still the lowest since 1968. Although violent crime has increased, the city continues to have one of the lowest violent crime rates in the nation with populations over 225,000. Additionally, our department solves cases at a much higher rate than the national average for cities of comparable size, thanks to our engaged patrol officers, talented investigators, and the committed support of our volunteer Crime Solvers Board of Directors and coordinators.

I am honored to lead such a talented, diverse, and committed team of officers and civilians as we continually seek to fulfill our mission: providing a safe community and improving the quality of life of our citizens. As always, I thank you and the City Council for your continued support of the men and women of the department, many of whom put their lives on the line every day.

Sincerely,

A.M. Jacocks, Jr.
Chief of Police

Mission Statement

The Virginia Beach Police Department is committed to providing a safe community and improving the quality of life for all people. We accomplish this by delivering quality police services and enforcing laws with equity and impartiality. In partnership with the community, we reduce crime through public awareness. In meeting this objective, we demand of ourselves the highest professional standards and dedication to our core values.

Vision

The Virginia Beach Police Department will be the premiere law enforcement agency setting the standard for excellence. Committed to those we serve, we adapt to change, while focusing on value-based principles, lifelong learning, and professional growth.

Core Values

Professionalism... in our actions, conduct, and job performance. Constantly striving towards ever-rising standards.

Respect... for all citizens, each other, and for differing points of view, regardless of age, race, gender, appearance, individual beliefs, or lifestyles.

Integrity... truthful and honest, deserving of trust. Ethical. Being guided by the concept of fundamental fairness in everything we do. Doing what is right.

Dedication... to the organization, each other, our families, and the citizens we serve. Unquestionable work ethic.

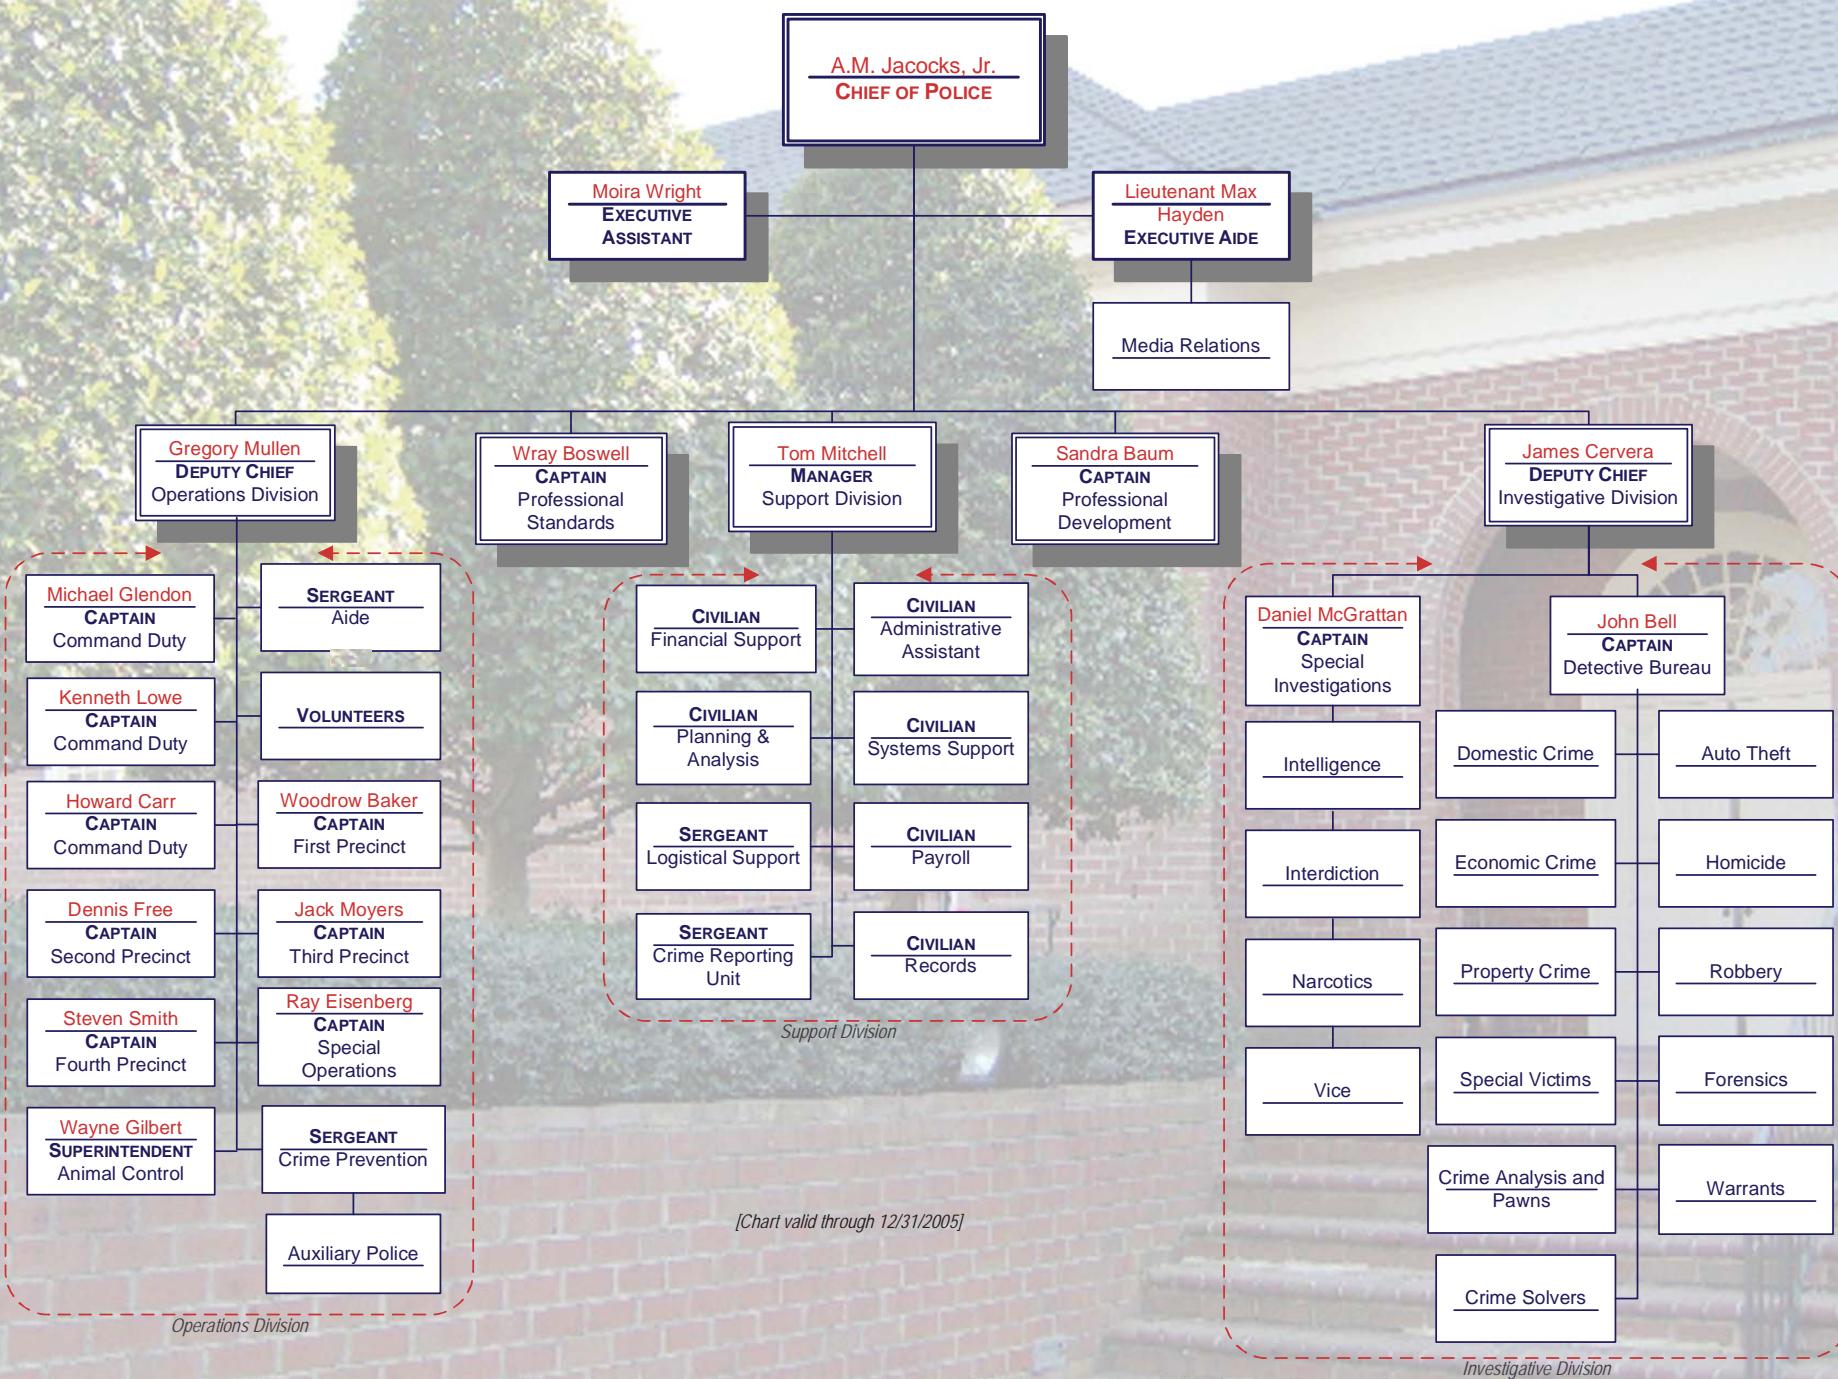

Excellence... in everything we do. Seeking to improve and excel, always.

Presented with a plaque for her
commitment to the Autism Society
Master Police Officer Shannon Wichtendahl

In Remembrance of Officer Brad Harper

We are deeply saddened by the tragic loss of a member of the Virginia Beach Police Department family, who was killed August 3, 2005, while serving as a U.S. Marine Reservist in Iraq. Our thoughts and prayers are with his wife, parents, and siblings.

Officer Bradley Harper joined the VBPD on February 16, 2004, and graduated from our 37th Basic Recruit Academy in July 2004. He was selected by his peers as Sergeant-at-Arms for his academy class.

Officer Harper served the City of Virginia Beach with distinction during his brief tenure and lost his life while serving our Nation in the Global War on Terrorism. Our community owes Officer Harper a debt of gratitude, as he chose to put his life on the line in defense of our rights and freedoms, both on the streets of our city and in Iraq. A patriot and a hero, Officer Harper will be missed, yet will always be remembered.

Chief A. M. Jacocks, Jr.

Hurricane Katrina

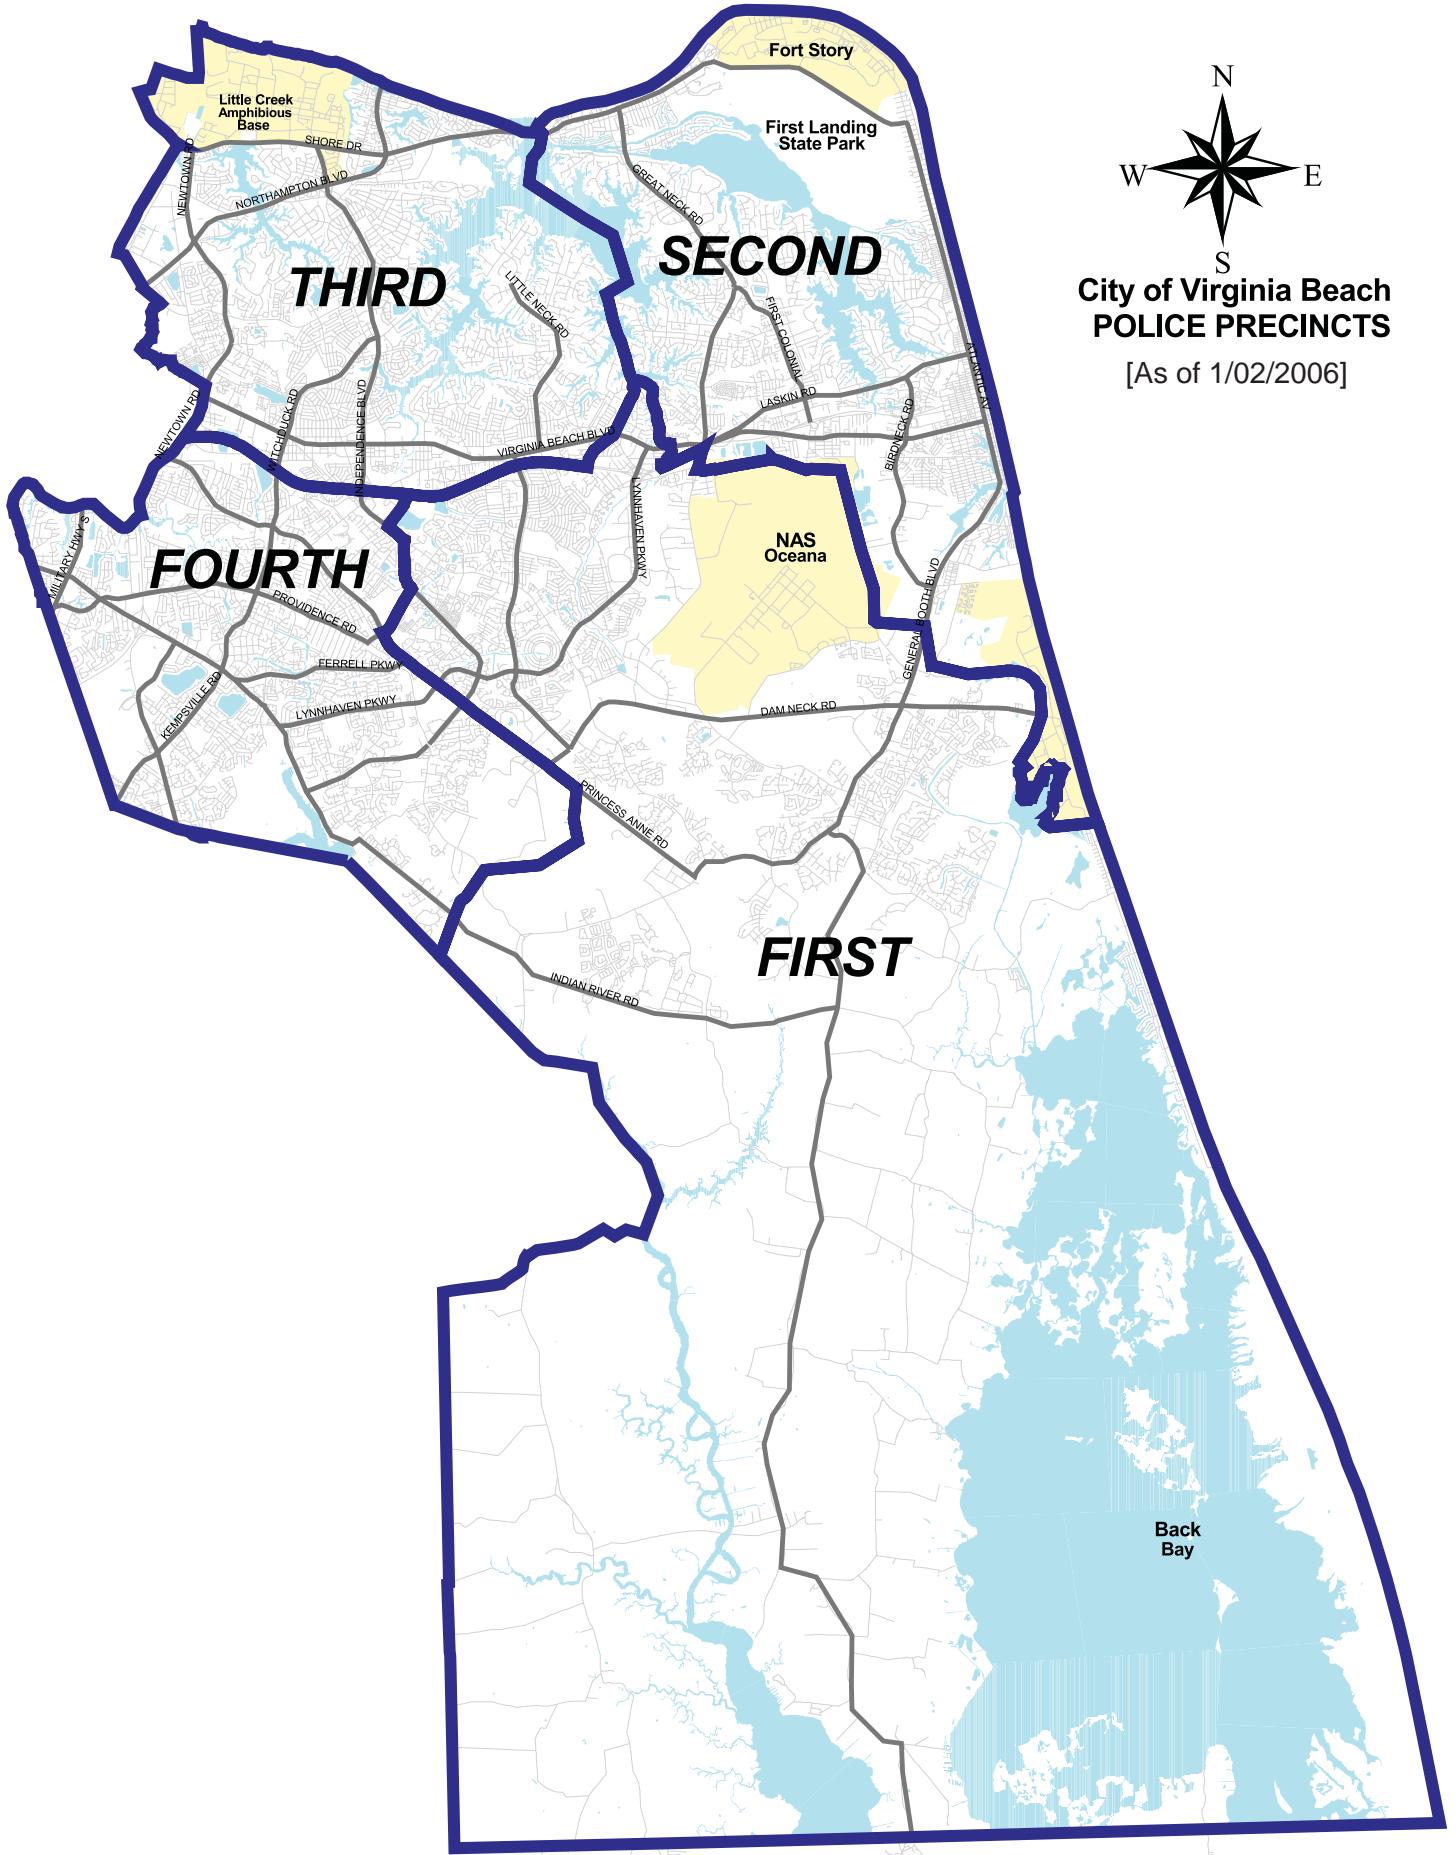

On August 29, 2005, the United States of America experienced one of the worst natural disasters in our history when Hurricane Katrina made landfall on the Gulf Coast.

On October 4, 2005, the Virginia Beach Police Department answered the call for help by deploying the first of what would be 5 teams of police officers to assist the citizens and our fellow law enforcement officers initially in Hancock County, Mississippi, and later in Harrison County, Mississippi. Each team spent two weeks working in towns such as Pearlington, Waveland, Kinl, and Bay St. Louis. What they found were people struggling to rebuild their community and doing what they could to survive under difficult conditions. They also found local officers working out of tents and trailers with borrowed and donated equipment. Our officers guarded distribution centers, patrolled devastated neighborhoods, monitored check points, delivered food, ice, and school supplies, and enforced the law. Many times they just listened to the stories of the people who had been through so much, giving them a chance to share their pain and suffering with someone who cared.

Chief A. M. Jacocks, Jr.

PRECINCT MAP

Director's Office

Chief Alfred Jacocks, Jr.

Professional Accomplishments

Chief Jacocks was appointed to the Virginia National Defense Industrial Authority's Grant Review Commission by the Virginia Senate for a 5-year term beginning July 1, 2005 . The purpose of the Commission is to foster and promote business, technology, transportation, education, economic development, and other efforts in support of the mission, execution, and transformation of the United States government military and national defense activities located in the Commonwealth.

He continues to serve on the Commonwealth's Criminal Justice Services Board, as well as the Board's Training Committee and Asset Forfeiture Committee; the Major Cities Chiefs Association Executive Board, as well as their Homeland Security Committee and By-laws Committee; and the Virginia Association of Chiefs of Police Legislative and Highway Safety Committees.

Part I Crimes

During 2005, violent crimes, which comprise only 8% of reported Part I Crimes, increased by 18% when compared to 2004. Homicides increased from 18 to 22, robberies increased from 477 to 670, and aggravated assaults increased from 383 to 430. Rape decreased from 136 to 79, a 42% drop. The largest violent crime increase was seen in robberies. There was a significant increase in street-related robberies, which appeared to be crimes of opportunity and occurred throughout the city. There was also an increase in drug-related home invasion robberies. Virginia Beach, along with other Hampton Roads cities, as well as some large cities across the nation, has seen an increase in violent crimes.

The crime rate for Virginia Beach for 2005 was 33.6 crimes per 1,000 residents, essentially the same as 2004 and still the lowest since 1968.

Property crimes comprise 92% of reported Part I Crimes and decreased by 1%. Burglaries increased by 21%, larcenies decreased by 5%, and arson decreased by 21%. There was no significant change in motor vehicle thefts.

Hirings and Promotions

As a testament to the growth and development of our department, 9 state-certified police officers and 34 police officers successfully completed the Law Enforcement Training Academy in 2005. Additionally, Chief Jacocks was proud to promote 2 sergeants and 1 lieutenant during 2005.

Enhancing a Culture of Integrity/Continuing Education

These initiatives are some examples of the department's commitment and efforts to sustain a culture emphasizing value-based principles, ethics, and integrity as important elements in all of our activities. Our purpose in continuing with this process is to solidify our goal of creating a culture that is based upon a belief system centered on our Core Values of Professionalism, Respect, Integrity, Dedication, and Excellence.

Leadership Coaching and Organizational Change

As part of the Enhancing a Culture of Integrity grant and others in 2004, the police department partnered with George Mason University to offer a graduate course to select Virginia Beach Police Department personnel. Fifteen personnel at the ranks of sergeant and lieutenant successfully completed the course in June 2005 and have become an integral part of our socialization process with its goal of assisting newly promoted leaders as they adjust to their new roles.

Management Skills Course

Another leadership initiative implemented was the Management Skills Course. This course, designed by a departmental workgroup, includes a variety of topics that have been identified as critical for success through surveys of incumbent leaders and research. It assists leaders develop skills necessary to be professionally successful and to help the organization improve. It is intended to augment our efforts to ensure leaders are prepared to face the challenges they encounter today and develop them for future opportunities.

George Washington University Evaluation Process

The Virginia Beach Police Department is a learning organization that takes pride in evaluating and assessing itself. While our organization has a deep history of principle-based operations, in 2005, we embarked on an initiative to enhance our culture and ensure that ethics and values remain strong cornerstones within the organization. To obtain the broadest picture possible, we invited community members to help us reach our vision by assisting with an organizational evaluation. We assembled a group of 65 educators, military, business, and civic leaders, members of the criminal justice system, and city officials. These efforts identified key elements that have been incorporated into the department's Strategic Plan.

CompStat

We are completing the second year of operation of our CompStat initiative. We are proud to note that the evolution of CompStat has dramatically changed how the department analyzes emerging crime trends and social disorder, rapidly deploys our resources to ameliorate these problems, and provides for in-depth assessments of our results. It has proven to be a comprehensive way to integrate all divisions in the department to achieve our mission. CompStat augments our community policing efforts by removing the criminal element from our neighborhoods, thus reducing the level of fear and disorder.

Blackwater

Over a three-year period, the police department and other city officials worked diligently to develop a solution for firearms training for police officers and deputy sheriffs. Law enforcement professionals in Virginia Beach now have the capability to train at one of the country's most advanced tactical training facilities. This offers opportunities for police officers and sheriff's deputies to prepare for a host of scenarios that may be encountered as they provide safety and security for the citizens and guests of our city.

West Point Leadership Course

We recently graduated our 6th West Point Leadership Class. We have also presented the course to the leadership teams of the Montgomery County Police Department, Fairfax County Police Department, and the Rochester, New York Police Department. As a leader in the Hampton Roads region, we have accepted students from the Norfolk Police Department, Chesapeake Police Department, and the Suffolk Police Department resulting in a waiting list of attendees from those police agencies.

Citywide Gang Task Force

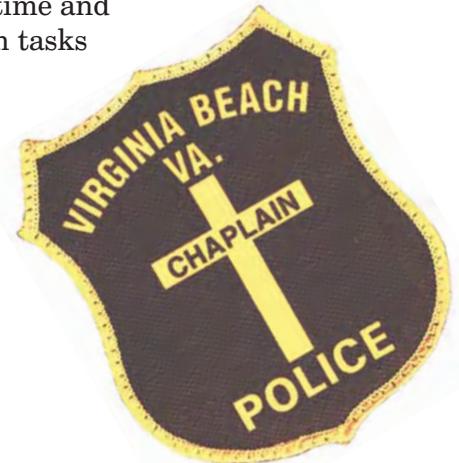

Realizing that we are not immune to the prospects of youth street gangs, the department is leading

an inter-disciplinary team of agencies in the identification and enforcement responses to this issue. Members of Police, School Administration, Office of the Commonwealth's Attorney, City Attorney's Office, Juvenile Domestic Relations Court, Juvenile Court Intake, Adult Probation and Parole, and the Attorney General's Office are taking a systems approach to the enforcement of gang related crimes in the city. As the focus of this task force is primarily enforcement, a second task force dealing with intervention will be formed during 2006.

Chaplain Program

The Virginia Beach Police Chaplain's Program is fully staffed by volunteers. The purpose of the program is to provide a core group of professional, ordained/commissioned, or vowed men and women in religious communities from a variety of faiths who volunteer their time and talents to the City of Virginia Beach as Police Chaplains. They seek to perform tasks that have a greater spiritual or social nature rather than a law enforcement nature. They serve the needs of police officers in their personal and professional lives while serving the City of Virginia Beach at large.

In achieving these goals for the year 2005, the Virginia Beach Police Chaplains worked a total of 6,101 hours. They were called out of their homes and places of work a total of 184 times to meet the needs of our community.

Media Relations

MPO Rene Ball and MPO Margie Long staff the Media Relations Office.

They are responsible for and have developed an outstanding relationship with the Hampton Roads media. This relationship is based on trust, cooperation, and mutual interest. The Media Relations Office assists reporters in coordinating interviews, developing news documentaries, and covering events of an unusual nature.

The Media Relations officers monitor the latest trends in the communications industry and provide continuing training and education for the members of the police department. In addition, the office organizes, coordinates, and implements all promotion, retirement, and award ceremonies.

The Public Relations/Marketing Office is staffed by MPO Jimmy Barnes, who augments the Media Relations Office and promotes police programs and services available to the citizens of Virginia Beach.

Professional Standards Office

Captain Wray Boswell

The Professional Standards Office is commanded by Captain W. S. Boswell and is staffed with 1 lieutenant, a court liaison officer, an administrative assistant, an office assistant II, and 4 investigators at the rank of sergeant. The Professional Standards Office also incorporates departmental accreditation responsibilities. The accreditation staff includes a master police officer and a police lieutenant who serves as the accreditation manager.

The primary function of the Professional Standards Office is to maintain and, where possible, increase the integrity of the Virginia Beach Police Department and to help ensure that members of the department are providing municipal law enforcement services which are valued by our citizens. Our efforts in this regard are accomplished by conducting full, fair, and objective investigations into allegations of misconduct on the part of members of the police department.

The Professional Standards Office also provides the Chief of Police and his staff with information to evaluate the effectiveness and efficiency of the day-to-day operation of the police department. This is accomplished with observations of ongoing police operations, periodic inspections and audits, and continual review of department policies, procedures, and practices.

In 2005, the Professional Standards Office handled a total of 276 administrative investigations. Of these investigations, 141 were citizen complaints, 70 were internal investigations, and 65 were inquiries alleging misconduct. The Professional Standards Office also responded to 623 subpoena duces tecum and Freedom of Information Act requests. Additionally, in 2005, this office began tracking information calls consisting of citizens' concerns that did not address a particular employee or allegation of misconduct. There were 46 information cases documented.

Professional Development & Training

Captain Sandra Baum

Professional Development and Training continued to aggressively seek and identify the best qualified candidates for the police officer recruit as well as qualified applicants who are already Virginia certified officers. We also continue to recruit and have hired several officers certified from other states. In 2005, we started a total of 3 academies with the last 2 starting just a month apart. We also began and completed a certified officers academy, which graduated eight officers. These endeavors provided our department with 70+ officers for the street. The department continues its leadership development program and has started the sixth West Point Leadership Program at the Law Enforcement Training Academy.

The department presented a four-hour computer based block of instruction to every police employee on Equal Employment Opportunity issues and sexual harassment scenarios. This was to enhance our efforts to have a workplace free of discrimination.

“Your Future” initiative is a partnership with area police departments, the Virginia Career Education Foundation, and News Channel 3. Information on a career in law enforcement is distributed to a target audience of middle and high school students, educators, parents, and job seekers in general. The program creates a positive perception about law enforcement careers. Two hundred commercials will air highlighting law enforcement opportunities in the Hampton Roads area.

Professional Development and Training also held job fairs involving police and other public safety members that attracted well over a hundred citizens.

Operations Division

Deputy Chief Gregory Mullen

Deputy Chief Gregory Mullen proudly serves as the commander for the Operations Division. The division is comprised of the four Police Precincts, Special Operations, Animal Control, Crime Prevention, and the Command Duty Office. Several focus areas have been established within the Operations Division. These include:

- Improvement of effectiveness and efficiency
- Improvement of resolution rates of all criminal violations
- Enhancement of roadway safety
- Improve internal process with emphasis on communication, data collection, and reporting
- Development and growth of our employees to ensure they reach their full potential
- Enhancement of overall planning and preparation for unusual events and homeland security initiatives

The established focus areas and CompStat are the driving forces for development of our enforcement response and prevention strategies. Part of this process includes the immediate analysis and dissemination of computerized crime data to aid in the identification of current and emerging crime trends and traffic safety concerns. As in the past, captains from each area of responsibility and their key staff members continue to meet monthly and discuss crime issues and the responses to those issues by the precincts and bureau. This process has been enhanced with the addition of weekly Operations Division staff meetings utilized to accelerate the identification of crime issues and responses and to discuss results of employed and future strategies.

Our department continues to subscribe to the principles of the community policing philosophy and differential response. In addition, we continue to support ongoing and emergent community policing initiatives throughout the city.

The Operations Division conducted extensive research to evaluate the alignment of our precincts, zones, and deployment of our resources. During this process, it was determined that, beginning in January 2006, realignment and redistribution of resources were necessary to address identified crime-related issues and to ensure that continued superior services would be provided equally to all our citizens.

Command Duty Officers

Command Duty Captains are an integral part of the Operations Division. On weekends, holidays, and after normal working hours, Command Duty Captains provide command of departmental operations, immediate command-level oversight of critical incidents, SWAT operations, vehicle pursuits, hostage and barricaded subject incidents, and incidents that involve more than one precinct or bureau. The Command Duty Captains also add continuity to communications between line and administrative staff during nights and weekends. This allows immediate concerns to be brought to the attention of command staff and enables immediate response when needed.

Captain Kenneth Lowe

Captain Michael Glendon

Captain Howard Carr, Sr.

First Precinct

Captain Woodrow Baker, Jr.

The First Precinct and its police substation are located in the southern region of the city and serve over 110,000 residents in a land area of approximately 195 square miles.

The First Precinct includes the transition area between the traditional suburban northern portion of the city and the primarily agricultural southern portion of the city. Increasing numbers of new subdivisions, aging suburban communities, and areas of large existing commercial enterprise are all areas of challenge. Areas of rural quaintness present additional challenges.

The First Precinct also provides services to the Municipal Center, the city's central hub of government. The city's rapidly expanding educational complex on Princess Anne Road involving Tidewater Community College, Old Dominion University, and Norfolk State University has required an expansion of the First Precinct's responsibility in providing security and services to insure a safe educational environment. With the start of construction in 2005 of a major hospital and medical complex at Princess Anne and Dam Neck Roads, the precinct's responsibilities and resources will be further expanded.

The First Precinct's School Resource Officer Program collaborated with the Virginia Beach City

Public Schools to host a 3-on-3-basketball tournament for youth, 9th through 12th grade.

Wal-Mart was a major community partner in this effort intended to involve our youth community in positive, safe interactive events.

The First Precinct's Community Oriented Policing (COP) Unit continues to exercise its responsibilities in stressed neighborhoods using traditional patrol efforts, as well as tactical innovations designed to involve citizens in the maintenance of their communities.

The Precinct's Crime Analysis Unit spearheaded the effort to effectively meld crime analysis data with rapid tactical and investigative responses. This addressed known crime issues and precluded minor crime problems from becoming major concerns.

Second Precinct

Captain Dennis Free

The Second Precinct and its 24th Street Substation are responsible for providing police services and protection to approximately 81,000 full-time residents and nearly 3 million summer visitors each year.

The majority of the hotels that make up the city's large resort area are part of the Second Precinct. The 48 square miles that constitute the area of this precinct includes about 11 miles of Atlantic Ocean coastline and 5 miles of Chesapeake Bay coastline.

Due to its unique nature that combines residential, business, military, light industry, and tourist areas, the precinct is patrolled by traditional police patrol, bicycle, ATV, motorcycle, and mounted units.

The initiative of awareness to the hotel and motel community that was started back in December of 2003 continued in 2005. This program is in partnership with the Hotel and Motel Association. This is an ongoing program to provide enhanced police and investigative services unique to the motel industry.

Entering into a partnership with the NAACP, Atlantis Apartments management and residents, and local churches, community policing officers established a working organization to enhance the livability of this community. The initiative seizes on the opportunity to improve the neighborhood that was created when the managers of Atlantis Apartments began extensive renovations to the complex. This effort continues with the department acting on specific recommendations of the Human Rights Commission.

Community policing has also been established at the oceanfront. Twenty-five officers were partially funded by a federal grant to provide police services as part of a community policing project at the oceanfront. These officers seek to form partnerships with restaurant and motel owners to solve problems within the philosophy of community policing.

During the summer, we began an extensive program to identify and assist homeless people who live in our city. This program works in cooperation with several social service organizations to offer services to those in need as well as identify any criminal elements that may be hiding among the homeless.

Third Precinct

Captain Jack Moyers

The Third Precinct is located in the northwestern section of the city. Geographically, the precinct encompasses 36 square miles with a residential population of about 104,000. The precinct has a large concentration of retail businesses along the major thoroughfares with light manufacturing industry in the Airport Industrial Park area. The Town Center business development continues to grow with several new additions of various retail establishments.

Third Precinct community policing officers, members of the Crime Prevention Unit, and the Human Rights Commission worked closely with the citizens of the Northridge community in the development of a neighborhood civic league. In working with the newly developed civic league, several areas of concern were identified by the residents. Many of those concerns were addressed during a large neighborhood improvement day in which Police, Fire, Waste Management, Code Enforcement, Parks and Recreation, and Crime Prevention all pitched in to help clean up the neighborhood.

The precinct-wide civic league initiative produced positive results. In early 2005, officers were assigned as civic league liaisons to each of the 32 civic leagues within the precinct. The officers regularly attended the civic league meetings and maintained contact with the civic league officials between meetings to address any concerns that arose. This initiative continues to be very popular with citizens of the precinct and serves to further the community policing philosophy of the department.

The Third Precinct continued its efforts in educating, implementing, and expanding "Project Lifesaver." Project Lifesaver is a program that aids in the search and rescue of mentally challenged, autistic, and Alzheimer's patients. Last year, under the guidance of Lt. Marie Chiarizia, the program expanded participation by over 300 percent. With the success of Project Lifesaver in the Third Precinct, the program will expand training and implementation department-wide.

In response to CompStat and crime analysis information, there has been a marked increase in the number and effectiveness of planned patrols. Notable planned patrols include: coordinated efforts by shift sergeants, school resource officers, and Special Investigations personnel to address gang and graffiti activity; planned patrols to address larcenies from vehicles; monitoring of high crash zone intersections; and a concerted effort of planned patrols during the Christmas season in the highly concentrated retail area surrounding Town Center that resulted in a 10-12% decrease in crime activity.

Fourth Precinct

Captain Steven Smith

The Fourth Precinct, located in the heart of Kempsville, encompasses the area south of I-264, west of North Landing Road, and north of Indian River Road. The precinct shares its borders with the cities of Norfolk and Chesapeake and is approximately 31 square miles with a population of approximately 140,000 residents. Both commercial and residential development continues to grow at a steady pace within the precinct.

In addition to sworn and civilian staff, the Fourth Precinct is fortunate to have the support and involvement of citizen volunteers. The precinct's volunteers contribute approximately 3,000 hours of their time to assist our support personnel and crime analyst.

The Fourth Precinct Citizens' Advisory Committee (CAC) continues to be an active and effective liaison organization and was one of the driving forces behind the overall success of the Fourth Precinct in 2005. The committee actively supported our mission and our officers by sponsoring the 2005 Fourth Precinct Appreciation Picnic and the Adopt-a-Muster Program.

The Fourth Precinct continued with its partnership with the security administrators at Regent University during 2005. The formation of this partnership improved the relationship with Regent University, which is a major employer within the City of Virginia Beach.

The Fourth Precinct continued its commitment to school safety through the School Resource Officer Program and our Juvenile Crime Suppression Unit. The Fourth Precinct's school resource officers work in partnership with the school officials at four high schools and four middle schools. In addition, each school resource officer provides support to the 19 elementary schools within the precinct's borders. Our Juvenile Crime Suppression Unit works very closely with the school resource officers as they seek out and identify at-risk youth during school hours by monitoring locations where youth congregate.

Special Operations

Captain Ray Eisenberg

Special Operations, commanded by Captain Ray Eisenberg, supports the Operations and Investigative Divisions by providing focused patrol techniques and tactics. Special Operations personnel receive specialized training and have responsibilities in the following areas: Aviation, Bombs, Canine, Diving, Fatal Crash Investigation, Hit and Run, Marine Patrol, Motor Carrier Safety, Mounted Patrol, Motorcycles, Selective Enforcement, Special Weapons and Tactics, Parking Enforcement Specialists, PhotoSafe, Special Projects/Homeland Security, and School Crossing Direction.

Aviation Unit - Airplane Operations

Airplane Operations - In 2005, the Airplane Enterprise Prisoner Extradition Program utilized leased aircraft, police department helicopters, police department vehicles, and commercial airlines to support the Extradition Program for the City of Virginia Beach and surrounding jurisdictions. This unit is staffed with a sworn police officer/pilot working in conjunction with officers from various commands who volunteer to conduct these transports. During this reporting period, the pilot in the Airplane Unit completed a refresher course for single engine land aircraft. In 2005, this unit completed 72 commercial flights, 75 charter flights, 18 vehicle trips, and 10 helicopter flights which culminated in transporting 208 inmates for the City of Virginia Beach and surrounding jurisdictions.

Aviation Unit - Helicopter Operations

The department operates two Bell 206BIII JetRanger Helicopters with 6 pilots and 14 volunteer flight officers. The Helicopter Unit flew 1,011 accident-free hours and responded to 1,283 police calls for service in 2005. The Helicopter Unit assisted on 48 felony and 42 misdemeanor arrests, responded to 5 swimmers and 20 boats in distress, 9 vehicle and 70 foot pursuits, 152 burglaries, and 140 robberies. The Aviation Unit took delivery of a broadcast microwave downlink system, video downlink for both of the unit's aircraft. This equipment was funded by a grant from the

Department of Homeland Security for \$90,936. This downlink equipment will allow the aircraft to broadcast real time video and infrared images to a ground receiver.

Bomb Squad

Officers assigned to the Bomb Squad are trained and certified by the FBI as "Hazardous Devices Technicians" after the completion of a six-week course. These highly trained explosives experts are responsible for the evaluation and safe resolution of incidents involving suspicious packages, improvised explosive devices, recovery of conventional and improvised explosives, and unexploded military ordnance.

The unit responded to 71 calls for service during the year. Highlights of those calls include: 26 in support of SWAT operations, 12 in response to suspicious packages, 10 bomb threats, 8 incidents of recovered unexploded military ordnance, and 3 improvised explosive devices.

Canine Unit

The Canine Unit is staffed with 1 sergeant and 15 officers. Fifteen of the canine teams are trained

in patrol work and one team specializes in explosive detection. The Canine Unit also responds to SWAT operations to assist with security and containment.

Dive Team

The Dive Team's members are selected from sworn officers assigned to Special Operations. The team is tasked with the search, recovery, and documentation of all evidence and lost property in the waters controlled by the City of Virginia Beach. In 2005, the unit made 36 work-related dives, to include the recovery of 11 vehicles, 2 bodies, and 1 firearm used in a local murder.

FaCT Unit

The Fatal Crash Team consists of one sergeant and six officers who are highly trained in accident investigation and reconstruction. The members of this team respond to all fatal and serious injury crashes, collisions involving police vehicles where injuries occur, and any collision that may be complex in nature. The officers utilize a forensic mapping system that enables them to create a detailed precise scale diagram of each collision scene. The team then uses this information to analyze the location of each fatality to determine possible future preventative measures.

Hit and Run

Two detectives are assigned to work all departmental cases of Hit and Run when the initial police report warrants follow-up investigation. Hit and Run detectives closed 794 cases in 2005. Forty-seven percent of the incidents resulted in a clearance.

Marine Unit

In 2005, the Marine Patrol Unit consisted of 7 officers and 1 sergeant. Members enforce rules and regulations relative to marine equipment, boat operation, and water usage. Officers investigate recreational boating accidents, including fatalities, and assist the U.S. Coast Guard with security for the Port of Hampton Roads. Officers conduct searches for drowned or missing persons, recovery of lost or stolen boats or property, and assist boaters in distress. The unit spent over 2,000 hours patrolling 200 miles of waterways, beaches, and inlets in Virginia Beach in 2005, issued over 1,100 tickets, conducted 11 joint escorts of high risk vessels with the Coast Guard, conducted over 1,700 safety inspections on other vessels, and answered over 1,500 calls for service. In 2005, the unit accepted the last of 3 vessels purchased with funding provided by the Department of Homeland Security. The vessel, a 34' Donzi, is the largest public safety vessel in operation in the city today.

Motor Carrier Safety Unit/Environmental Crimes

The Motor Carrier Safety Unit conducts roadside inspections of commercial motor vehicles to locate and enforce equipment defects, logbook violations, hauling permit violations, and hazardous material violations. In 2005, there were 74 overweight citations issued with a total assessment of \$372,595 in liquidated damages. Officers conducted 244 commercial vehicle inspections resulting in 90 vehicles being placed out of service for safety violations.

Motorcycle Unit

The Motorcycle Unit's primary mission is to reduce traffic-related incidents and deaths within the City of Virginia Beach through proactive speed limit enforcement. Members handle various traffic-related calls for service including motor vehicle accidents, disabled vehicles, funeral escorts, parades, races, dignitary protection escorts, and

assorted special events. Officers issued over 5,500 citations for traffic offenses, answered over 730 calls for service, conducted over 275 escorts, and investigated 224 accidents in 2005.

Mounted Patrol Unit

The Mounted Unit consists of 1 sergeant, 13 officers, and 2 animal caretakers. The unit supports and enhances the law enforcement and public relations mission of Special Operations. This unit addresses a variety of objectives which include increased staffing at the beachfront from April thru December, staffing for precinct planned patrols, additional resources for recruitment efforts, and special events requiring crowd management. This year the unit hosted the 2005 National Police Equestrian Competition, provided services to 2 police funerals, and conducted a Mounted Patrol Academy. The unit was responsible for making over 461 misdemeanor arrests, 240 traffic summonses, 210 crowd management calls, and 164 special assignments.

PHOTOSafe

In 2005, the Virginia Beach Photo Red Light Enforcement Program, titled PHOTOSafe Virginia Beach, continued to operate with 4 intersections and 8 cameras.

In 2005, the unit processed 19,127 incidents. From those incidents, 360 warning letters and 11,575 notices of violation were sent to the registered owners. Since the cameras have been active, each intersection has seen a decrease in the number of incidents captured. This reduction in incidents has translated into a decreased number of crashes caused by red light runners. Ongoing public education workshops and presentations were conducted for various citizen groups and organizations.

On June 30, 2005, the state's sunset clause was enacted and the law allowing photo enforcement expired. In compliance, the cameras were turned off and covered. Through cooperative efforts between the City of Virginia Beach and the camera vendor, Redflex Traffic Systems, violation data continues to be collected using the loop sensors that are embedded in the roadway. Statistical data has been collected revealing an increase in violations of as much as 99.5%. This information was presented to legislative officials in an attempt to reenact the law and allow traffic safety programs such as PHOTOSafe to continue to make the roadways safer.

Selective Enforcement Team

The Selective Enforcement Team (SET) is comprised of 1 sergeant and 8 officers who are scheduled to work during the hours when the majority of impaired drivers are traveling on the roadways. The mission of SET is the reduction and prevention of alcohol-related accidents through enforcement and education. During 2005, SET officers conducted over 30 safety lectures attended by over 10,000 individuals. They issued over 7,900 traffic summonses, arrested 534 DUIs, had 367 misdemeanor cases, and 104 felony arrests. In 2005, the Southside Chapter of MADD recognized SET officers for their efforts in detecting and apprehending impaired drivers.

Special Projects Unit

The Special Projects Unit is responsible for assisting with the planning and coordination of various special events and projects for the department. One sergeant and one master police officer are assigned to direct this section's activity. Unit members assisted with details including holiday operations, numerous parades, races, marathons, and administrative support for other events. Unit members help coordinate several out of town mutual aid requests to assist other agencies.

The Special Projects Unit is also responsible for ensuring the department's Emergency Response Plan is operational and properly functional.

SWAT Team

The Special Weapons and Tactics Team responds to incidents involving hostage situations, service of search and arrest warrants, barricaded and/or suicidal subjects, and any circumstances that may pose unique safety concerns for routine patrol personnel. The SWAT Team responded to 57 calls for service in 2005, including 16 high risk drug-related search warrants, 18 high risk arrest warrants for violent felons, and 11 hostage/barricade situations.

The SWAT Team works in conjunction with the Warrant Squad to locate and apprehend fugitives throughout the city and responds out of town to extradite violent criminals back to Virginia Beach for court proceedings.

Crime Prevention

During 2005, there were 190 active Neighborhood Watch communities that assisted the police department in "Taking a Bite Out of Crime." The Department of Criminal Justice Services (DCJS) grant that was awarded in 2004 entitled "Operation Lookout Expanded" reached out to approximately 2,033 senior citizen residents. A total of 125 home security assessments were also completed. This program has helped to make senior citizens feel safer in their homes. Over 40 citizens attended the 2 Senior Citizens' Police Academies and 80 citizens attended the 15-week Citizens' Police Academy. Quite a few of these residents have gone on to volunteer with the city.

There were 4 school-based programs taught in the public schools during 2005: Aggressors, Victims and Bystanders is a 12 session anti-bullying program that is taught through the Health and Physical Education curriculum. Approximately 8,000, 7th graders received this program and 2 of the 12 sessions are presented by the school resource officers. The Options, Choices and Consequences Program was taught to 5,600, 9th graders. This program dealt with the consequences of gun violence and the options young people have, as well as the choices they can make to avoid violence.

The program was replaced in the fall of 2005 by Class Action. Class Action is a legal issues curriculum that was developed by the Office of the Attorney General for the Commonwealth of Virginia. It is taught to all 12th grade students. During the fall of 2005, approximately 600 students had received this program.

The Every 15 Minutes Program is an interactive 2-day anti-drunk driving and alcohol awareness program. Two high schools received this program during 2005 with over 1500 students witnessing the mock accident.

Continued emphasis was placed on Crime Prevention Through Environmental Design (CPTED) in the review of site plans and preliminary subdivision plats. Crime Prevention reviewed 609 site plans, 120 preliminary subdivisions, and 144 applications for rezoning and variances.

The Police Auxiliary is 23 members strong. These individuals volunteered 5,837 hours and answered 1,066 calls for service. This is an approximate savings of \$128,414 to the city. Numerous presentations were made to various civic groups on identity theft and personal safety, as well as conducting home, school, and business safety audits.

Animal Control

Superintendent Wayne Gilbert, II

Superintendent Wayne P. Gilbert, II, commands the Bureau of Animal Control. The primary responsibility of Animal Control is the enforcement of state domestic animal laws and animal-related city ordinances. The bureau also takes an active role in the community through educational and volunteer programs and by placing homeless animals into new homes.

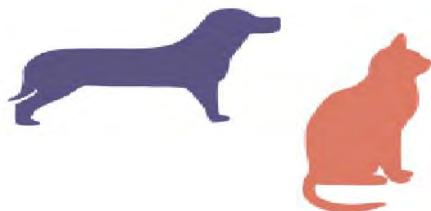

Besides the superintendent, the bureau's workforce consists of 2 animal control supervisors, 1 administrative assistant, 2 clerks, 21 animal control officers, 6 caretakers, and a number of volunteers. The office and kennel are open to the public for visits, adoptions, reclaiming, and business seven days a week. Animal control officers are on patrol daily from 0630 to midnight, and an officer is available on callback duty during the overnight hours.

In April 2005, the bureau hosted the city's first ever PetPalooza! on the grounds of Princess Anne Middle School. Approximately 300 people and animals attended this fun event meant to promote healthy pets and animal adoptions.

Animal Control Statistics

Dispatched Calls	29,862
Stray dogs impounded	3,030
Stray cats impounded	1,922
Dogs turned in by owner	388
Cats turned in by owner	292
Animals returned to owner	2,054
Animals adopted	1,113
Animals transferred to VBSPCA	37
Animals transferred to Rescues	189
Dogs and Cats euthanized	2,329
Animal Bite Reports	1,200
Animal Cruelty Investigations	2,018

Investigative Division

Deputy Chief James Cervera

Deputy Chief J.A. Cervera serves as commander of the Investigative Division that houses the primary investigative bureaus of the police department. Captain J.L Bell commands the Detective Bureau and Special Investigations is commanded by Captain D.T. McGrattan. The vision of the Investigative Division is to enhance the quality of life for our citizens through enhanced investigations, crime reduction initiatives, crime prevention, and community involvement. By utilizing a “systems approach” to the investigation of criminal activity and leveraging our most important resource, the men and women of the department, we have been successful in maintaining clearance rates well above the national average for all Part I Crimes. Through leadership at all levels, commitment to our citizens, and moral courage, we will continue to pursue the department’s core mission.

Gang Initiative – In 2005, a multi-agency workgroup was formed to analyze and respond to an identified issue with upstart street gangs. Police, Office of the Commonwealth’s Attorney, Juvenile Court Service Unit, Probation and Parole, Juvenile Detention Facility, and Schools have representatives on this workgroup. Intergroup working relationships have improved, processes have been streamlined, and a coordinated enforcement plan was put in place.

Crime Prevention Initiatives – The Detective Bureau has become an integral component of our Crime Prevention Program. Squads within the bureau have researched the causative factors and location of particular crime patterns and worked with the Crime Prevention Unit to alert citizens within the affected neighborhoods. One such example centered on stolen autos in the Third Precinct. Detectives and uniform officers distributed newly designed crime prevention literature to over 800 homes resulting in a dramatic decrease in stolen autos.

Detective Bureau

Captain John Bell

Bait Car Program

The Bait Car Program is a proactive crime fighting measure to identify and arrest car thieves in the act of their crime. Bait cars will be specifically designed, equipped, and deployed in an area identified as having a high risk of theft. The bait cars can be remotely disabled on command from police personnel, thereby minimizing the risk to officers, citizens, and offenders during the apprehension process.

Crime Solvers Program

The Crime Solvers Unit’s weekly Crime Line radio broadcast has been expanded to over 1.5 million listeners, which represents a 45% market share. The Crime Solvers Unit facilitated the police department’s acquisition and implementation of the Department of Motor Vehicles TIPS Program. This program allows police detectives to instantly obtain

digitized Virginia Department of Motor Vehicle photographs for criminal justice purposes. The Crime Solvers Unit revitalized interest and participation in the Virginia Beach City School's Crime Solvers Program. In May 2005, Virginia Beach Crime Solvers received the Southeastern Crime Stoppers Association Award for jurisdictional populations between 400,000 and 499,999 for having received the greatest number of tips, made the most arrests, and cleared the most cases. Crime Solvers received 1,650 tips that led to the arrest of 177 people for 256 charges, the recovery of \$64,620 in stolen property, and the seizure of \$60,879 in illegal drugs.

V-Stop Grant

The Domestic Violence Unit received a continuation of V-STOP grant funding for a domestic violence investigator position. The total of the grant awarded was \$63,196. This grant enhances our working partnership with the Samaritan House, a shelter for battered women, and ensures the safety of victims of domestic violence.

Top 10 Program

The Warrant/Fugitive Unit reinitiated the Top 10 Program designed to apprehend wanted persons who have 5 or more misdemeanor warrants on file, 3 or more felony warrants on file, or both. There were 76 Top 10 wanted persons arrested, resulting in the service of 360 felony warrants and 113 misdemeanor warrants.

Operation Oktoberfest Citywide Warrant Sweep

A citywide warrant sweep operation in October, known as "Operation Oktoberfest," resulted in the arrest of 92 wanted persons and the service of 107 warrants.

Emergency Custody and Temporary Custody Order Service

The Warrant/Fugitive Unit completed 473 civil mental custody processes, expending a total of 2,120 hours. They traveled 18,574 miles throughout the state to transport mentally ill persons to screening and treatment locations.

Sex Offender Citywide Sweep

The Warrant/Fugitive Unit conducted a citywide warrant sweep to locate and arrest dangerous sex offenders wanted by the State Police for failure to abide by their probation requirements. Eleven wanted persons were identified, resulting in the arrest of two such persons, while the others were determined to be residing outside the City of Virginia Beach.

CompStat

CompStat is a program that was adopted by the Virginia Beach Police Department in 2004 and has proven to be a comprehensive way to integrate all divisions in the department to achieve our mission. CompStat, which stands for computer statistics, is a means that the police department uses to increase analysis of crime

trends, rapidly deploy resources, and analyze results. CompStat augments our community policing efforts by removing the criminal element from our neighborhoods, thus reducing the level of fear and disorder which enhances quality of life. CompStat is about making a difference, which is accomplished through crime prevention, community involvement, crime analysis, teamwork, and quality enforcement.

Forensic Services – UNIT STATISTICS

The Forensics Unit, supervised by Dan Clanton, continued to realize an increase in caseload and success in 2005, with an increase in cases with identified comparable latent fingerprints and number of fingerprint identifications. Several members also increased their capabilities in highly skilled areas. Beth Dunton completed an apprenticeship with Harry Holmes and successfully testified as an expert in bloodstain pattern analysis. Others beginning apprenticeships included Shelli Hunter in forensic entomology, Towana Aiken in fingerprint identification, and Julia McLane in video enhancement.

CRIME SCENE		CIVIL IDENTIFICATION	
Assignments FSU	6,511	Civil/Criminal Processes FSU	9,749

		CD/DVD	335/39
		Video Analyst cases	149
		Video Analyst hours	290

Special Investigations

Captain Daniel McGrattan, Jr.

Special Investigations is responsible for investigating crimes involving narcotics, vice, gangs, the diversion of prescription drugs, computer crimes, and organized criminal activities in the city. The unit is also responsible for the collection, maintenance, use, and dissemination of criminal intelligence data.

Criminal Intelligence Unit

The Criminal Intelligence Unit (CIU) serves to collect, analyze, and disseminate intelligence to support the department. Detectives in CIU liaison with and provide assistance to state and federal agencies on cases which impact our city. The Drug Diversion Unit is a part of the CIU, and they investigate the illegal possession, sale, and distribution of prescription drugs by citizens and medical professionals.

Special Investigations

To effectively impact youth crime, agency teamwork and practices of prevention and intervention are paramount. The Criminal Intelligence Unit and Narcotics Detection Teams continue to work closely with our school resource officers and the Virginia Beach School Administration to ensure a safe environment in our schools.

In 2005, CIU recorded 38.6% more reports than in 2004. CIU worked with the Joint Terrorism Task Force on the surveillance of subversive activity at the National Socialist Movement's rally in Yorktown, Virginia. This large scale, multi-jurisdictional operation was successful and gathered valuable intelligence on this dangerous hate group.

As gang-related crime has become a more pressing issue in our city, CIU has continued to enlist the support of schools, citizens, business groups, civic groups, the courts, and others to emphasize the importance of a cohesive approach to combating the problem. CIU has instituted a format and training program to seek debrief information from street officers and other investigators. This method of exchanging information is proving to be valuable in providing leads on a variety of cases.

Narcotics Interdiction Unit

The Narcotics Interdiction Unit detectives concentrate on hotels/motels and transportation methods utilized to transport illicit substances to and from Virginia Beach. The unit also has two narcotics detection teams made-up of dogs and handlers. These teams handle all requests for narcotics detection in the city and assist other local, state, and federal agencies.

Special Investigations is a member of the FBI Norfolk Joint Terrorism Task Force, the DEA Norfolk Task Force, and the ATF Norfolk Task Force. SI provides three full-time task force detectives to supplement these federal agencies in the investigation of terrorism and drug and weapons-related cases that have any connection to our city. These detectives also serve as a conduit providing our department with timely international and national intelligence that may impact our community.

Vice Squad

The Vice Squad is responsible for the investigation of street level narcotics violations, illegal sports bookmaking and gambling operations, prostitution and sexual solicitation cases, ABC violations, copyright violations, and the illegal sales of drug paraphernalia. In addition, the Vice Squad is assigned to work with the First Precinct on drug-related crimes in an effort to enhance

communications and facilitate a partnership between commands. The Computer Crimes Unit (CCU) is a part of the Vice Squad and responsible for conducting online investigations and recovering computer evidence from seized computer systems. The main focus of these online investigations is to prevent the sexual exploitation of children over the Internet. CCU also educates parents and children of our community on the dangers of the Internet.

The Vice Unit continued to be proactive in their investigations and the Computer Crimes Unit (CCU) was instrumental in the online investigations targeting individuals seeking children for illicit sexual activity. The unit was able to conduct a number of investigations that resulted in the arrest of 19 subjects. In addition, the CCU charged 5 subjects with possession of child pornography and conducted approximately 50 forensic examinations of computer systems in an effort to retrieve evidence of a variety of criminal violations

Narcotics Squad

The Narcotics Squad actively investigates self-initiated and reported drug cases that range from short-term investigations to long-term, complex conspiracy investigations. In addition, each squad is assigned to work with one of the three remaining precincts, thereby enhancing communications and facilitating a partnership and further cooperation between commands.

The Narcotics Squad, while working multiple investigations, contributed to the seizures of a large quantity of drugs. The total value of narcotics seized in 2005 was approximately 2.3 million dollars. In addition to drug seizures, members of Special Investigations were responsible for the seizure of drug-related assets valued at over 1.1 million dollars.

Support Division

Manager Tom Mitchell

The Support Division consists of several units and provides administrative and support services to other Virginia Beach Police Department operations, City of Virginia Beach agencies, and to the public.

The Office of Planning and Analysis is responsible for research and development, mapping coordination, preparation of statistical reports and documents, and coordination of the department's Internet and Intranet Web sites. This office works closely with the department's systems analyst who coordinates various technical projects.

Members of the Records Unit enter various data into automated systems such as arrest warrants and traffic accident reports. They assist the public in obtaining various permits and copies of reports. The Crime Reporting Unit's offense clerks enter all criminal offense reports into the automated records system and assist the Virginia Criminal Information Network (VCIN)/National Crime Information Center (NCIC) clerks in their responsibilities with the state criminal information system.

Members of the Logistical Support Unit are responsible for maintaining the security of all evidence that is stored for criminal investigations and prosecutions, as well as found property. They also order and issue uniforms, supplies, and other police equipment.

The Payroll Unit prepares a bimonthly payroll for more than 1,000 sworn and civilian employees.

The division's manager, accountant, and administrative technician coordinate many of the department's fiscal matters, including budget development and monitoring, grant coordination and tracking, and procurement.

Support Division staff and the City's Department of Communications and Information Technology completed a major upgrade to the department's primary records management system.

Through a combination of \$350,000 of federal grant funds and shared asset funds, every police officer and animal control officer have been issued a new portable radio. Until then, officers shared radios through a pool. Individually assigned radios assures that each officer has a portable radio during mass deployments such as during summer holiday weekends, inclement weather events, or other emergencies.

The Support Division obtained licensing for an automated inventory module for their current records management system. This module allows the department to track equipment, weapons, vehicles, and other items by officer and command. Accountability for this equipment has increased as well as access to the inventory listing by all commands.

The department's Intranet site, VBPDnet, was redesigned and upgraded to provide additional functionality to department members.

Volunteers

The Virginia Beach Police Department is very proud of the dedicated citizens who, while working alongside our members, strive to meet the same mission and desire to serve the community. In 2005, 360 volunteers donated their time contributing approximately 33,115 hours at a savings to the city of \$308,119.

In 2005, the Bureau of Animal Control kicked off a new volunteer program for youths over the age of 13. The Humane Enrichment Learning Program (H.E.L.P) involves young people in the proper care, maintenance, and understanding of the importance of humane treatment of animals. In turn, they assist with cleaning, feeding, and caring for some of the animals maintained at the facility. The young people report to work after school, on weekends, and during spring and summer breaks. For this program's first year, there were 29 young volunteers who donated approximately 3,160 hours at a savings of \$21,423.

Incident Based Reporting

Incident Based Reporting (IBR) is a federal and state system for collecting and reporting crime data. Three major differences exist between the IBR system and the old reporting system, **Uniform Crime Reporting** (UCR).

First is the expansion of the 8 UCR Part I Crimes to 22 IBR Group A Crimes. Many of the offenses previously recorded in the Other Reported Offenses Report (Part II Crimes) are now included in the Group A Crimes list. Second is the method of submitting data. Under the UCR system, summary data was submitted for the Part I offenses and arrest categories. Under the current IBR system, up to 144 data elements for each incident and arrest are submitted. And finally, under the IBR, each offense (the crime) that occurs during the incident (the event) is counted. Under the UCR rules, only the most severe offense is counted. For example, if a rape and robbery occurred in the same incident, under IBR, both the rape and robbery are counted. Under the UCR system, only the rape is counted.

IBR requires strict adherence to rules set by the state. If a rule is not strictly followed, the incident cannot be submitted. This sometimes occurs when information required by the state conflicts with the facts of the case.

Please note that the figures on this report may differ from those released at the local level. This discrepancy is due to the strict requirements for submission. The Virginia Beach Police Department will continue to provide data in the UCR format so that comparisons and trends can be identified using the same methodology. Comparisons between UCR data and IBR data should not be made due to different collection methods.

2005 IBR Submission Results

Traffic

In 2005, there were 9,457 reported crashes occurring in the City of Virginia Beach. This was a 0.5% increase from the 9,414 reported crashes in 2004. Twenty-six crashes resulted in 28 fatalities.

There were 2,263 hit and run crashes in 2005, which was 23.9% of the total crashes reported. There was a 2.8% increase in hit and run crashes compared to 2004.

In 2005, there were 113 pedestrians hit by motor vehicles resulting in 7 deaths. There was a 4.2% decrease in total pedestrians hit compared to 2004.

Of the 11 fatalities occurring in 2005 where seatbelts were available for use, 8 (73%) were not wearing seatbelts. This does not include any fatalities involving motorcycles, pedestrians, or bicycles.

In 2005, 7 (27%) of the fatal crashes were alcohol/drug related, with 3 motorcyclists, and 2 pedestrians being under the influence. 8 of the 28 total victims were legally intoxicated (.08 BAC or higher).

In 6 (23%) of the fatal crashes the victim was using alcohol.

Of the 28 fatalities, 21 (75%) of the victims were at fault.

Of the 26 fatal crashes, 7 (27%) occurred between the hours of 11 p.m. and 7 a.m.

In the 26 fatal crashes, 20 (77%) of the individuals at fault were male.

Of the 28 fatalities 5 (18%) of the victims were under the age of 21.
